Company Offers to Build  
Ships for 10% Profit**

(Associated Press Telegram)  
Washington, Oct. 25.—When bids for four new battleships and twenty destroyers—the largest single order ever placed by the navy—were opened today it was disclosed that the government faces the soaring prices of structural materials in perfecting the navy building program. Although the department had allowed \$3,000,000 more for each battleship than it did last year and placed a limit of \$11,500,000 for hull and machinery alone the bidding ran within a close margin.

All bids of the Fore River Shipbuilding company controlled by Bethlehem Steel were submitted with the express stipulation that they were based on current prices for material and labor. The company proposed that the government pay an increase or profit by any decrease and let the federal trade commission determine the figures.

The Cramps submitted no figures at all but proposed to build the ships at cost and take a constructors profit of ten per cent. The details of the bids or to whom the contracts will be awarded cannot be determined until the figures have been studied thoroughly by the navy constructors.

The opinion of the naval constructors based on a hurried examination of the bids is that all are sufficiently within the limit of cost to permit all the ships being built by private builders and there will be no necessity of construction in government yards unless as a question of policy, it should be thought desirable.

## WOMAN ON TRIAL FOR MURDER OF HER HUSBAND

(Associated Press Telegram)  
Newark, N. J., Oct. 25.—The trial of Mrs. Caroline Beutinger on the charge of first degree murder was begun here today. She is accused of having shot and killed her husband, Cristof, a New York coat merchant, on July 11 at their home in Caldwell. She admits the killing but claims she shot in self defense when her husband after a long period of abuse entered her room to attack her.

Mrs. Beutinger with her five children in court with her, exhibited no emotion when the prosecutor detailed the circumstances in an effort to prove that the shooting was premeditated.

## British Gold Is Pouring Into Mint In New York City

(Associated Press Telegram)  
New York, Oct. 25.—Bankers here expect that the British treasury will continue to export gold to this country as fast as the government mints can handle it. Since Monday of last week, gold valued at \$26,000,000 has entered the local assay office. Since May 10 the total value of British gold sent to the United States has reached \$350,000,000.

## Italian Cavalry Joins Lines Of The Allies In East

(Associated Press Telegram)  
Paris, Oct. 25.—Italian cavalry from south Albania formed a junction yesterday with cavalry and artillery from the entente forces on the Macedonian front, the war office announced today.

There has been no accurate information heretofore as to the extent of the Italian advance but it is evident from today's French announcement that this movement as well as the extension westward of the Macedonian front has been carried forward more rapidly than previous advances had indicated. The entente allies now have an unbroken front across the Balkan peninsula from the Aegean sea at the mouth of the Struma river to the Adriatic at Avlona, a distance of 250 miles.

## BUFFALO BILL FAVORS WILSON

(Associated Press Telegram)  
Cheyenne, Wyo., Oct. 25.—The greatest rough rider of them all, "Buffalo Bill" himself, has come out for President Wilson's re-election. "Buffalo Bill" had always been a Republican until a few years ago, when he lined up with the Progressives. How he stands this year is shown by a characteristic telegram sent by him from Kingston, N. C. It reads: "Hughes can't ride Woodrow. He is pulling leather already and will be disqualified. Bill Cody."

—Fighting Goes On**

(Associated Press Telegram)  
London, Oct. 25.—The process of closing in on Rumania from both sides is being continued by the armies of the central powers. Tchernavoda on the Danube and Vuica pass on the Transylvanian border have been captured.

The Russo-Rumanian forces to Field Marshal von Mackensen's petropolis armies is conceded by Petrograd which announced the evacuation of this important town, from which stretches the only bridge across the Danube from Dobrudja, carrying the railroad line running into interior Rumania. Important entente forces evidently remain on the Dobrudja side of the Danube, as Petrograd mentions the continued retreat of Russo-Rumanian troops northward along the Black Sea coast.

Berlin comments that the loss of Tchernavoda deprives them of their last railroad communication. The Austro-German successes on the north likewise is important as opening another route into Rumania from Transylvania for Gen. von Falkenhayn's forces. This pass penetrates the Transylvanian Alps half way between the Iron Gate of the Danube and Rothernburg pass below Hermannstadt.

Petrograd announces a success for the Russians near Dorna Vatra, close to the junction of the frontier of Bukovina Hungary and Rumania where the Austro-German forces have been driven from a series of heights.

Reporting on the French advance at Verdun, Berlin says the attack gained ground as far as Fort Douaumont, which was in flames and that the fighting was continuing. German submarine attacks on Norwegian shipping continues. Today five additional Norwegian vessels are reported sunk.

The French have kept the important ground they won yesterday in (Continued on Page 2, Col. 1.)

## COTTON PRICE REACHES NEW HIGH RECORD

(Associated Press Telegram)  
New York, Oct. 25.—Cotton in the future market sold today above twenty cents a pound, the May option rising 22 points to 20.01, the highest price it has touched since the Civil war.

The advance carried prices \$7.90 a bale above the low level of last Wednesday. The strength in the late trading yesterday seemed to attract many overnight buying orders and the demand was further stimulated by the census report on spinning to October 18.

## GEN. TREVINO WARNS CIVILIANS TO LEAVE CITY

(Associated Press Telegram)  
San Antonio, Oct. 25.—Gen. Jacinto Trevino, commandant of the Chihuahua garrison has issued warning to residents to leave the city, according to a report that reached army headquarters today from Gen. George Bell at El Paso.

General Bell said Mrs. Trevino was among the refugees who had arrived at El Paso from Chihuahua.

## WRECK TRAIN WAS WRECKED

(Associated Press Telegram)  
Gallipoli, O., Oct. 25.—Traffic on the Kanawha & Michigan & Hocking Valley railroads was tied up many hours today as a result of two bad freight wrecks near here, one at Addison and one near Hobson. A wreck train going to the Hobson wreck turned over eight miles east of here, but the trainmen escaped injury.

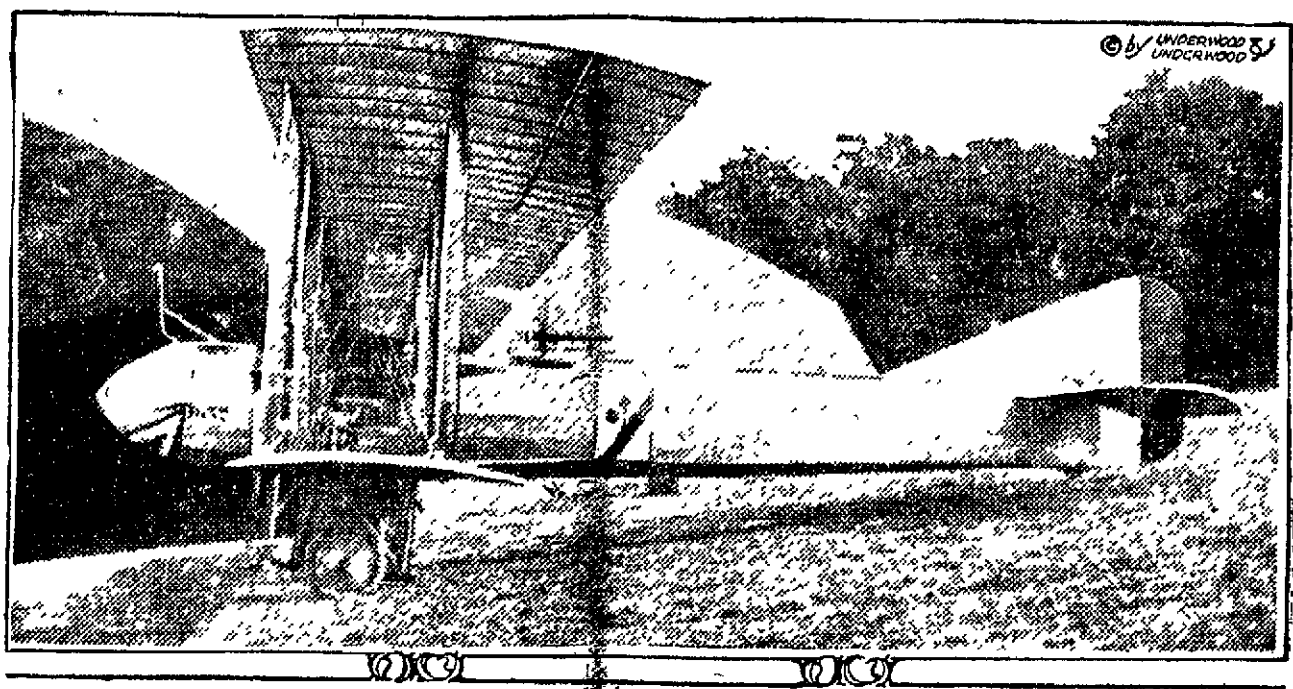

## SLAVS CLAIM SUCCESS

(Associated Press Telegram)  
Petrograd, Oct. 25.—via London—South of Dorna Vatra near the frontier junction of Bukovina, Transylvania and Rumania Russian troops dislodged the Austro-German forces from a series of heights, the official announcement reports, taking some prisoners and two machine guns.

## ARGUMENTS POSTPONED

## "SMILING DRAGON" BAGS MORE THAN A DOZEN GERMAN PLANES

Nungesser's monoplane, the "Smiling Dragon." This monoplane of the dragon fly type, used by Lieutenant Nungesser, the French aviator, has brought down more than a dozen German planes. The front of the aero has a smiling face painted on it. A mouth with jagged teeth is cut into the front of the plane.

## PACIFIC COAST LEFT WITHOUT A DESTROYER

(Associated Press Telegram)  
San Diego, Cal., Oct. 25.—For the first time in more than 15 years, according to naval officials here the Pacific coast will be left without a single destroyer in active service when the Paul Jones, Preble, Stewart and Whipple, are placed in first reserve today. It also was said that this will be the first time in many years that there have been so few ships in active service on the western seaboard.

Of the squadron of seven cruisers attached to the Pacific fleet only the San Diego, flagship of Admiral Caperton is in full commission. The remainder are either undergoing repairs or are short of their regular complement aboard. The entire squadron, with the exception of the San Diego is in first reserve. The active fleet, it was pointed out, now consists of the San Diego and several third class cruisers and gunboats.

## DROP EFFORTS TO SHORTEN THE TEN COMMANDMENTS

(Associated Press Telegram)  
St. Louis, Oct. 25.—Efforts to shorten the ten commandments have been abandoned at the present session of the convention of the Protestant Episcopal church, leaders in the convocation announced today. It was asserted that until the next convention in 1919, at least, the decalogue will stand in the prayer book as it is. A commission appointed to suggest method of revision of the book of common prayer favored the shortening of five of the commandments by the elimination of the reasons. Members of the commission asserted today, however, that this suggestion would not be pressed.

## NEW CAMPAIGN IS STARTED FOR VILLA'S CAPTURE

(Associated Press Telegram)  
Washington, Oct. 25.—Gen. Carranza has started a new military campaign against Villa bandits in northern Chihuahua, according to information furnished the American forces beyond the border. The war department gave out today the following summary of Gen. Pershing's report.

"Gen. Pershing reports that Carranza officials state that a column of defecto troops is moving north from Parral against Villa. Nothing definite as regards the recent action between defecto troops and Villistas at Santa Ysabel is known."

## Cox And Pomerene Address A Rally In Columbus

(Associated Press Telegram)  
Columbus, Oct. 25.—Former Governor James M. Cox continued his tour of Franklin county villages today. He speaks tonight with Senator Pomerene at a rally in Columbus. Frank Walsh of Kansas City was in Logan and Murray City speaking for the reelection of President Wilson. Governor Willis toured the fifth district by automobile today and speaks tonight at a big Republican rally at Van Wert. Myron T. Herick was in Preble county Wednesday. William A. Proederast speaks at Cleveland tonight and H. P. Gardner, former progressive candidate for governor of Maine speaks at Lima tonight.

## TEACHERS REQUEST SALARY INCREASE WOULD BE \$300,000

(Associated Press Telegram)  
Pittsburgh, Oct. 25.—Teachers in the Pittsburgh public schools from the kindergarten to the high school departments have asked the board of education of the city for an increase in salary from \$50 to \$100 a year. William M. Davidson, superintendent of schools, estimates the advance, if granted, will amount to \$300,000. The high cost of living is given as the reason for the request.

## BEANS JOIN PROCESSION

(Associated Press Telegram)  
Chicago, Oct. 25.—The retail price of canned beans has been advanced 50 per cent, wholesale dealers admitted here. Beans which sold at 10 cents a can are now selling at 15 cents. A cheaper grade is selling for 12 cents.

(Associated Press Telegram)  
San Francisco, Oct. 25.—Parole for John J. McNamara, who was involved in the dynamiting of the Los Angeles Times, building in 1910, probably will be asked Saturday from the state board of prison directors, it was reported here today.

## BERLIN REPORTS EXTENSIVE AIR RAIDS ON SOMME

(Associated Press Telegram)  
Berlin, Oct. 25.—(Wireless to Sayville)—German aeroplanes on the Somme front made more than five hundred raids on the Anglo-French positions October 22, says the Overseas News Agency. There were 209 aerial fights between German airmen and entente allied fliers on this day and according to the news agency it is stated with certainty that in the Somme sector alone more than sixteen entente aeroplanes were shot down. In addition a number of hostile aeroplanes were forced to land behind the Anglo-French lines. The weather on the day mentioned was bright.

Of the aeroplanes shot down on Oct. 23, eleven are in German possession. The German fliers attacked with bombs and machine guns troop camps and marching columns, while others flying low directed their machine gun fire on hostile trenches. On the night of Oct. 20-21 German air squadrons dropped several thousand kilograms of bombs on the railway station of Longueau, near Amiens and on ammunition depots at Certeis, and Marcellette and on camp Eray on the Somme. The railroad station at Longueau was ignited and explosions apparently from ammunition trains followed. A huge fire was visible for a long time.

On the night of Oct. 21-22 German squadrons dropped several thousand kilograms of bombs with strong effect upon the railway station of Mont Didier, on troop camps at Chignolles, Harbonnières and Prevat and upon troops marching to the front.

## Wheat Advances Five Cents Again Today In Chicago

(Associated Press Telegram)  
Chicago, Oct. 25.—Grain upward swings in the wheat market carried prices more than five cents a bushel above yesterday's closing. The May delivery quickly touched \$1.84 3-4 today as against \$1.78 1-2 to \$1.78 3-4 at the finish the day before.

Buying which was on an immense scale, received its chief impetus from reports that the drought damage in Argentina had assumed the proportions of a disaster, and was continuing to grow worse.

Advances continued until in some cases about 7 cents a bushel had been added to the futures. December soaring to \$1.86, as compared with \$1.78 7-8 to \$1.79 1-8 last night. Meanwhile the May option ascended to \$1.85. The extreme rise above the lowest point of yesterday's trading was 12 5-8.

At this stage it was announced that foreigners had not only stopped buying but had turned to the selling side of the market. A swift break in prices followed. The downturn amounted to more than four cents a bushel from the previous top level.

## Premier's Funeral Was Held Today; Successor Named

(Associated Press Telegram)  
Vienna, Oct. 24.—via London Oct. 25.—The funeral of Count Karl Stuerckh, late Austrian premier, was held this afternoon in the Cathedral of St. Stephen. Archbishop Palli officiated. Emperor Francis Joseph was represented by Archduke Leopold Salvator. Tonight the body will be taken to Halbenrain, the premier's former home, for burial in the family tomb.

For successor to Count Stuerckh as premier, the names of Dr. Ernest von Koerber, now finance minister of Austria-Hungary, and Prince Conrad von Hohenlohe-Schillingsfurst, now Austrian minister of the interior are mentioned.

Dr. Friedrich Adler who shot and killed Premier Stuerckh on last Saturday, today turned over to the court. The case is to be tried.

## PRESBYTERIANS FORM NEW BOARD FOR EDUCATION

(Associated Press Telegram)  
Atlantic City, N. J., Oct. 25.—The executive commission of the Presbyterian General Assembly met here today to adjust details incidental to the consolidation of the college board, of New York, and the board of education, the headquarters of which are in Philadelphia, authorized at the general assembly held here last May. The new body, to be known as the general board of education, will meet here tomorrow for organization and election of officers.

## COMMISSIONERS MAY MOVE TO WASHINGTON

(Associated Press Telegram)  
Atlantic City, N. J., Oct. 25.—Unofficial consideration is being given by the Mexican-American joint commission to a suggestion that it transfer its conferences to Washington, because of the better facilities there for obtaining records, the commissioners might expedite their work there. It was indicated today that it was not improbable that this would be the last week in Atlantic City.

## AIR SQUADRONS BATTLE IN ISTRIA AND IN ITALY

(Associated Press Telegram)  
Rome, Oct. 25.—Via Paris.—Squadrons of Italian and French seaplanes have bombarded Austrian military works in three places on the west coast of Istria and escaped unscathed, says an official announcement of the Italian war office today. An aerial battle between the French hydro-aeroplanes and Austrian seaplanes in which one of the Austrian machines was captured, another fell into a lagoon at Razloghem on the Italian coast near Caorle, also is reported. The Austrian squadrons had been throwing bombs on Caorle.

## Russian Losses This Summer Have Reached 1,700,000

(Associated Press Telegram)  
Berlin, Oct. 25.—(By Wireless to Sayville.)—There have been 1,797,522 casualties in the Russian army since June 1, according to the latest reports made public by the central identification offices at Kiev, says an Overseas News Agency statement today.

"Included in this number," continues the statement, "are 83,981 officers. Among officers who have recently fallen are two generals, eight colonels and lieutenant colonels in command of regiments. The largest number of casualties was among the Serbian corps and the Caucasian cavalry."

## GERMANS ADMIT LOSS

(Associated Press Telegram)  
Berlin, Oct. 25.—(By Wireless to Sayville.)—The war office announced today that an attack made on the Verdun by the French yesterday caused ground for them. French assaults on the Somme front were without success.

**General Nivelle Takes Advantage of Withdrawal of German Troops to Other Fronts and Breaks German Line on Front Four and a Half Miles Long—French Losses Were Surprisingly Light**

## GERMANS LOSE MANY PRISONERS IN ATTACK

**Attacking Forces Moved Forward in Four Columns, Each With Its Objective Clearly Fixed—Division Commanders Found Task Unusually Easy and All Lines Advanced Farther Than Was Planned—Defenders Were Completely Surprised by Suddenness and Magnitude of the Attack Which Was Preceded by Intense Artillery Fire—Confidence of French People Increased by New Move**

(Associated Press Telegram)  
Paris, Oct. 25.—Verdun, long lost sight of, sprang suddenly and unexpectedly today into the forefront of the public mind which exclusively had been directed towards the battle of the Somme front. The German front on the right bank of the Meuse literally was swept away for a distance of four and a half miles like straw before the wind.

Gen. Nivelle for weeks past had been watching the German movements like a lynx, carefully calculating the effect of every withdrawal of troops for transfer to the Somme and eastern fronts. At the same time he quietly made his preparations and when he judged the Germans had thinned their defense to the danger point, he struck like lightning. The result was one of the most brilliant operations of the campaign.

The Germans who yesterday were pressing close upon the inner line of defense at forts Souville and Tavannes have now been driven beyond the outer defenses of the Fort Douaumont-Vaux line. Vaux fort remains in possession of the Germans but the French line extends beyond it on the north at Vaux village and Fumun wood and also on the south of it at Damoulop battery and Chenois wood from both of which positions it can readily be attacked.

The French artillery preparation was brief but intense and was over before the German commanders had time to bring up reinforcements even if they were available. The assaulting French waves caught them before the Germans recovered from the surprise and swept over trenches after trench sending prisoners in all lines to the rear.

French losses were very light, it is believed even lighter than any record in the attacks on the Somme front.

News of the success has caused tremendous public enthusiasm here and this is all the greater because of the general impression that Verdun was over and done with that both sides were contenting themselves with holding what they had won. Today's operation, proving that the French could strike a smashing blow at Verdun while carrying on an extended offensive on the Somme, has greatly increased by the loss of Constantza.

The French attack at Verdun apparently took the Germans completely by surprise and not at one point did they succeed in stopping the impetuous rush. In three hours the French recaptured ground, to gain which required months of patient effort by the Germans including such positions as Douaumont Fort and Thiaumont work, which in the past were won and lost repeatedly.

The official French account of the battle, every word of which was weighed carefully, does not say the German line was forced back but that it was "bust."

Later details of the French victory show that its extent was a much of a surprise to the French as it must have been to the Germans. General Petain regarded the front cast of the Meuse as too cramped, and suggested to Gen. Nivelle, the commander of Verdun, that he give himself more elbow room. With that end in view infantry was sent up to reinforce the French and artillery was ordered for the establishment of new batteries. The aviation department was commissioned to make an exhaustive survey of the positions of the German batteries and points of assembly. This work was carried out and the secret was kept so well that to all appearances the Germans never had an inkling of what was in prospect. Furthermore, they evidently believed the energies of the French were being absorbed by the battle of the Somme and made no preparations to meet a thrust at Verdun. Thus it came about that what was intended for a small maneuver became a brilliant tactical success.

The attack was planned for ten days ago. Artillery began preliminary work but rainy weather set in and grand headquarters ordered a postponement. When the time came the attack was delivered by four columns of a division each, first on the left between the southern slopes of Pepper Hill and Thiaumont farm.

This met with little difficulty. The attackers carried Thiaumont work and farm and the Haudemont quarries set as the objective and gained the Bras-Douaumont road beyond. There the attackers stopped having advanced about a mile. The second column was a colonial division under General Mangin from the corps which retook Douaumont fort last May. The task assigned to it was to take Hill 320, northeast of Fleury and the edge of Callette wood. The offensive there was even more rapid on the left wing. General Mangin immediately saw he could advance farther and the commanding officer was therefore informed that preparations had been made to continue the attack. Hill 320 was rushed by troops from Fleury which approached Callette wood through the celebrated ravine of death. They then crossed the wood and reached the approaches to Douaumont fort. Everywhere the Germans gave way before them. However, the garrison of the fort hurriedly prepared to defend the important point confined to it. French troops surrounded the fort and extended their gains everywhere without an instant's delay. Fatigue parties set to work turning the defenses so as to be ready to resist attacks west of the fort. The village of Douaumont had been carried at a run and passed beyond. Meanwhile a stiff struggle went on between the French and the defenders of the fort. The Germans refused to surrender and the French killed nearly all of them before they forced their way into the ruins. Things went equally well on the right. The third column advanced half a mile, reaching the edge of Vaux pond and carrying the part of the Vaux-Chapire woods still held by the enemy as well as Fumun wood. The column stopped near these woods on the outskirts of the village of Vaux.

The fourth column which was ordered to operate in the vicinity of Vaux fort without taking it followed out the program exactly. It drove out the Germans from Chenois and Lauffee woods, captured Damoulop battery and pushing ahead encircled Vaux fort on the east, south and west so that the defenders have no way of issue except to the north.

## Uncle Sam Will Have Thirty-Two New Airships

(Associated Press Telegram)  
San Diego, Cal., Oct. 25.—Thirty-two military aeroplanes including every type of battle plane, pursuit, bombardier and training machines, are to be delivered at the signal corps training school here before the first of the year according to an announcement made today by officers of the military aerodrome. The pursuit aeroplanes will be single seaters, carrying a rapid fire machine gun and capable of flying more than 90 miles an hour. They are said to be the first aircraft of this type ordered by the war department of the training of military aviators.

## AUTO BANDITS ARE BUSY IN CLEVELAND

(Associated Press Telegram)  
Cleveland, Oct. 25.—Two auto bandits who have been operating in Cleveland for a week early this morning held up and robbed three more men. Police say they are using an auto which was stolen in Fremont several days ago. Chief of Police Rowe issued an order to the police this morning demanding a roundup of the bandits and instructing the police to capture them dead or alive.

The police and private detectives today began a nation-wide search for the \$25,000 worth of jewelry stolen from the home of C. L. Bradley in Cleveland a week ago today. Although the robbery was committed last Wednesday, police were not notified until yesterday.

**GOING UP!**  
INVESTIGATED BY THE PRESS  
Chicago, Oct. 25.—The wholesale price of high grade family flour was advanced to \$10 a barrel today, the highest price since the civil war. This is an increase of 30 cents within two days.

# A PROGRESSIVE TELLS WHY HE FAVORS WILSON

New York, Oct. 25.—Rev. Arthur J. Brown, one of the best known missionary workers in this country, who describes himself as a Progressive Republican, today declared himself for the re-election of President Wilson. Mr. Brown is secretary of the Presbyterian Board of Foreign Missions.

"A Progressive Republican, I thought last Spring that if Mr. Hughes were nominated I would vote for him but I shall now vote for Mr. Wilson," says Mr. Brown. Among his reasons he gives:

"1. Because, in this time of world tumult and strained international relations, we should not change our national leadership. Wilson has an inside knowledge of the situation which no other man has and which it would be unwise to lose.

"2. Because, while he has made mistakes, no mortal could have guided our Government through such a troubled period without making them. I see no reason for believing that anyone else would have made fewer and much reason to fear that a new man would make more, especially since I have read the Republican speeches. That he is assailed alike by the pro-German and pro-Ally hypenates, who would subordinate America's interests to those of one of the other European power, is proof of the judicious balance that he has preserved.

"3. Because, as an American citizen, irrespective of party, I resent the tirade of vituperation which the Republican leaders are pouring upon our Government, abusing it for everything it has done and for everything it has not done and doing their utmost to paralyze its action and destroy its influence.

"4. Because Wilson has done everything, except war, to uphold our national rights, and his opponents' demands for deeds instead of words can only mean that they would make war or that they are merely bluffing.

"5. Because Wilson advocates the social and economic justice which is one of the vital necessities of the age, and which is vehemently opposed by the machine politicians and corrupt interests from whose clutches Progressive Republicans tried to extricate our country four years ago."

## RUMANIA

(Continued from Page 1) their coupe north of Verdun the war office announced today.

Last night parts of the regained territory which includes fort Douaumont and stretches along a front of more than four miles at points nearly two miles inside the former German lines, were subjected to a German counter attack. The French held their ground, however, according to Paris, repulsing the German assaults which were delivered in efforts to recapture the Haumont quarries, west of Douaumont, and the Damloup battery southeast of Vaux. The commander at Fort Douaumont is among the prisoners taken by the French, which a preliminary report placed at 3500 men. Fort Vaux still is in German hands but the French lines run beyond it on both sides.

Rain is interfering with operations on the Somme front. Only artillery actions are reported in that area.

Today's French official report announces an important military move in the Balkans where Italian cavalry from southern Albania has formed a junction with cavalry and artillery from the extent front in Macedonia. This gives the entente an unbroken front of 250 miles across the southern Balkan peninsula, from Avlona, Albania, on the Adriatic to the

mouth of the Struma river east of Saloniki on the Aegean coast. Berlin military critics point to the capture of Predel reported yesterday as marking the loss by the Rumanians of the natural mountainous defenses on their Transylvanian frontier. This success of the Austro-German forces, it is commented, puts them nearly in a position to move down upon the Rumanian plains toward Bucharest, while Field Marshal von Mackensen in Dobruja is pressing closely upon Tcheravoda on the Danube, the gateway to interior Rumania from the southeast.

Total casualties in the Russian army since June 1, are placed at 1,797,522 in figures given out by a semi-official news agency in Berlin, declared to have been taken from the latest reports of the Russian central identification bureau at Kiev.

## WILL FINISH HEARINGS ON LIQUOR CASES

The Licking county liquor license commission will finish the hearings on license applications which were held up some time Friday afternoon and will announce its findings either Saturday afternoon or the first of the week. There were eight such places, charges having been preferred against them by state inspectors. Two applications were rejected and they have also been given a hearing. State liquor license inspectors are in the city today in attendance upon the hearing in the latter cases.

## French Marines May Be Removed After Interview

(ASSOCIATED PRESS TELEGRAM) Athens, Tuesday, Oct. 24, via London, Oct. 25, 1:05 P. M.—The Greek government today issued a communication to clear up misunderstandings due to exaggerated reports of King Constantine's interview with the French military attaché on Friday. The communication explains that the French government made no demands but merely submitted a memorandum and that the king never declared he was prepared to break off relations with the entente. It is thought that as a result of a conversation between the king and the French minister this morning during which explanations were made, the French marines may be withdrawn shortly from Athens and Piræus. A dispatch sent from Athens on Friday said the French military attaché had presented to the king demands that Greece transfer the entire military force in Thessaly to the southern part of the country and deliver to the entente allies war materials intended for Thessalian forces, but there has been no previous intimation that the king had threatened to break off relations with the entente.

## Car Shortage Is Acute; Operators Appeal For Relief

(ASSOCIATED PRESS TELEGRAM) Clarksburg, W. Va., Oct. 25.—Declaring there is a shortage of no less than 5,000 coal cars from the normal supply, the Central West Virginia Coal Operators' Association following a conference here today sent a petition to the general officers of the B. & O. praying for relief. It developed at the meeting that companies throughout the state have more than enough orders to keep their mines in steady operation but the car shortage which has been felt for months has now become so acute as to endanger the industry.

## Adamson Bill Is Unconstitutional Says Chicago Man

(ASSOCIATED PRESS TELEGRAM) Cleveland, Oct. 25.—"The eight-hour pay day law—not the eight-hour day law." That was the characterization of the Adamson bill employed by S. O. Dunn, editor of the Railway Age Gazette of Chicago, in speaking on the bill before the members of a club today.

He questioned the constitutionality of the law and its efficacy in settling its particular problem.

## Railroad Men In Canada Will Not Quit Work

(ASSOCIATED PRESS TELEGRAM) Ottawa, Ont., Oct. 25.—An agreement between Canadian Pacific railway officials and their employees for the settlement of the threatened strike has been reached and will be signed some time today, according to a telegram received from Winnipeg by Minister of Labor Crothers.

## WESTERN PROGRESSIVE FAVORS PRESIDENT

New York, Oct. 25.—Declaring that Woodrow Wilson is a real Progressive, Thomas J. Sharkey of Staples, Minn., one of the leading Progressives of that state, will support the President for re-election. Sharkey was a delegate to the Chicago convention in 1912.

# PROSPERITY IS NOT DUE TO WAR DEMANDS

In answer to the cry of Republican politicians that the unprecedented prosperity that has come to America under the administration of President Wilson is due to European war orders comes a statement from Charles M. Schwab, head of the Bethlehem Steel Company, himself a Republican, that refutes the charge.

"It is a mistake to imagine that the major portion of our business is war order business," says Mr. Schwab in a signed article in the October number of System. "Even a casual inspection of the great volume of exports will demonstrate that the bulk is drawn from the ordinary course of business. It is also found that at present prices domestic business is as profitable as foreign munition business."

No one can doubt the capability of Mr. Schwab to judge the business situation, nor can one gainsay the recent figures issued by the Department of Commerce. In this report it is stated that during the first eight months of the present fiscal year the exports of the United States showed a trade balance in favor of this country of \$1,730,000,000.

Trade Balance \$2,500,000,000.

Predictions are made that the trade balance for the entire year will exceed the unprecedented figure of \$2,500,000,000. The value of the exports for the eight months was \$3,435,909,212, an increase of \$1,205,882,100 over the same period last year.

Another financial authority, too, has spoken—Charles Hayden, of Boston. He estimates that American securities held abroad have been reduced from \$6,000,000,000, before the war, to \$1,000,000,000 at the present time. Coincidentally, the United States has become a creditor of foreign nations, for the first time in history, to the extent of \$1,500,000,000. Under Wilson, therefore, we have wiped out \$6,000,000,000 of foreign indebtedness, and are a creditor to the amount of \$500,000,000.

Mr. Hayden calls attention to the fact that this always was a debtor nation under Republican rule.

All Classes Prosperous.

And so, from all sections of the country, from all kinds and classes of business, from the merchant, the manufacturer, the farmer, the workman, come reports of unparalleled prosperity. The Chamber of Commerce of the United States, in an official report, declares that basic stocks are rising, that railroad earnings are abnormally high (indicating the great movement of commodities), and that the national prosperity will continue.

Not temporary prosperity, due to the war, is this that is filling the coffers of the nation. It has a sound basis for permanency, made certain by the laws enacted under the Wilson administration. The President himself, in his recent speech at Baltimore, emphasizing the value to the country of the Tariff Commission, the Trade Commission, the Federal Reserve Board and the shipping bill. These enactments not only will stimulate the productivity of the country, but will safeguard its output and provide a means of conveying it to all the ports of the world.

How Business Has Gained.

Here is just a glimpse at percentages, prepared by expert statisticians, that prove what the Wilson administration has done for the people:

Increase in bank deposits, 68 per cent.; money in circulation, 22 per cent.; stock of gold in United States, 34.1 per cent.; foreign commerce, 52.7 per cent.; balance of trade in favor of United States, 287.6 per cent.; agricultural exports, 44.1 per cent.; manufactured exports, 155 per cent.; railway revenues, 47.6 per cent.; value of general crops and live stock, 12.4 per cent.; value of wheat crop, 67.5 per cent.; output of pig iron, 35 per cent.; production of steel, 35.5 per cent.; farm lands, 12.7 per cent.; men employed in manufacturing, 23.2 per cent.; wages paid in manufacturing, 41.5 per cent.; capital employed in manufacturing, 39.9 per cent.; value of manufactured products, 41.2 per cent.

So, it may be seen that all lines of industry have profited under the great wave of prosperity that the Democratic administration has wrought.

AND THE MOUNTAINS BUSINESS COMPRISES ONLY ONE PER CENT. OF THE TOTAL OF MANUFACTURED PRODUCTS.

Is it the part of wisdom, therefore, to gamble with prosperity such as this?

Will the American voter dare to throw away a sure thing?

## SIX KILLED WHEN INTERURBAN HITS AN AUTOMOBILE

(ASSOCIATED PRESS TELEGRAM) South Bend, Ind., Oct. 25.—Six persons were killed today when an interurban car of the Southern Michigan railway company struck an automobile north of South Bend. Only one body has been identified, that of Franklin Brown of Linwood, Ind.

Details of the accident are lacking but information received by telephone is to the effect that the car was totally demolished and that the six occupants were instantly killed. The dead include beside Brown, three women and two children. The women were middle aged. One child was about two years old and the other about one year old.

All side curtains were up and it is supposed that the driver failed to see the interurban car, which was in charge of Motorman A. W. Lyons and Conductor Wm. Harter. They state the car was running at the usual rate of speed being on scheduled time.

## WILSON THE ABLE GUIDE.

Shortsighted Not to Re-elect Him, Says Mrs. Joseph Fels.

"I have a deep conviction that the hope of democracy lies with Woodrow Wilson. If we fail to re-elect him we have much to fear."

Thus speaks Mrs. Mary Fels of Philadelphia, an independent in politics and one of the two American delegates to the Stockholm Peace Conference

MRS. MARY FELS.

held in January, 1916. Since the death of her husband, Joseph Fels, she has continued his work in the Fels Commission, founded by him to promote the Single Tax movement.

"I see no use," she says, "in picking out specific measures, either things done or things left undone. I see them all as a part of a great man striving in a situation incomparably difficult to do what is best for the country that he is trying to save. In this situation and through this endeavor he is becoming more and more the people's friend and the man who can most ably guide the destinies of the country in the difficult days that lie ahead.

"To me it is so clear that I cannot understand how people may venture to vote for any one except Mr. Wilson. Mr. Wilson is the man who will inevitably serve the interests of all except those who are moving heaven and earth to serve their own selfish ends. It is not only Mr. Wilson, it is the people of the United States, that I am thinking of."

## Editorial Comments

### WHAT IS BACK OF HUGHES?

Who nominated Hughes? The Republican national convention under the control of the Republican bosses, captained by Penrose, Barnes, Smoot, Crane, Cannon, et al., watch-dogs of privilege, repudiated as political crooks by Roosevelt and the Progressives four years ago.

Who managed Hughes's campaign in the convention?

Taft's former campaign manager, ex-Postmaster General Hitchcock, whose function in previous conventions has been the delivery of the corrupt Republican delegations from Southern States.

Who is supporting Hughes's candidacy?

Wall Street, the predatory trusts, the tariff beneficiaries, the seekers and holders of special privilege, the exploiters of Mexico, the munition manufacturers, the railroads, the bankers, united plutocracy, even its women folks, all enemies of fundamental democracy, who hope to prostitute government for selfish gain.

What prominent statesmen are supporting Hughes?

William Howard Taft, foremost apostle of reaction; Theodore Roosevelt, disciple of Debs and advocate of war for war's sake; Elihu Root, attorney for malefactors of great wealth, and all the tory mouthpieces of privilege.

Why are the 'interests' supporting Hughes?

Because they expect to receive in return for financial aid, special legislation that will add enormously to the wealth of the few at the expense of the many; because they see in Woodrow Wilson the greatest exponent of democracy since Jackson, and seek to destroy him lest this nation become a real democracy.

What will Hughes do, if elected?

The nearest he has come to saying what he would do was at Milwaukee, when he declared that La Follette's Seaman's bill must be repealed, the Underwood tariff replaced by a higher tariff, and the "whole administrative legislative accomplishments wiped off the books for the good of the country."

What is included in these legislative accomplishments?

The Income Tax, the Inheritance Tax, the Child Labor Law, the Federal Reserve banking system, the Farm Loan system, the Good Roads program, the Federal development of Alaska, the Tariff Commission, the Federal Trade Commission, the Shipping bill, autonomy for the Philippines, the Clayton Act curbing government by injunction the preservation of neutrality, the maintenance of peace, and the enlarged army and navy.

What would Hughes's election signify?

The triumph of reaction and all that it signifies in thwarting human progress.

## NOISE OF SAW SCARES HORSES; THEY RUN AWAY

A team of horses belonging to Samuel Drum of Union Station became frightened in South Second street at noon today. They were near the Smith & Sons lumber yard when the noise of the saw in the lumber yard frightened them. They broke away from the wagon, running to the south side of the square where both were captured. There was but little damage, the harness being the only thing destroyed.

## Marine Officers Killed In Effort To Take Bandit

Washington, Oct. 25.—Official reports on the killing of Captain W. W. Low and First Sergeant Frank L. Atwood, of the Marine Corps in the Dominican republic yesterday while attempting to arrest a bandit, were received today by the navy department from Col. Pendleton, commanding the American forces.

First Lieut. John Marston, 3rd, was injured by a fall presumably during the fight, although the dispatch gave no details. The bandit Ramon Batista was killed. The dispatch does not say where the fight occurred. It adds that conditions otherwise are quiet.

## STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

## BUSINESS MEN

WHO OPPOSE PRES. WILSON ARE  
OPPOSING THEIR BEST INTERESTS  
SAYS CHICAGO MAN

President of Board of Trade Says  
Mr. Wilson is Only President  
Who Has Not Hurt Business.

Chicago, Oct. 25.—J. P. Griffin, president of the Chicago Board of Trade, and a lifelong Republican, today announced his decision to vote for Woodrow Wilson. In an authorized interview, Mr. Griffin advanced the opinion that American business men who oppose President Wilson were opposing their own best interests as well as the best interest of the nation.

"Such business men misinterpret President Wilson," Mr. Griffin says, "and are making a profound mistake. Mr. Wilson is the first President the United States has had in my lifetime who has not hurt business. This was a tribute paid to the President by Mr. Griffin in lauding the Wilson record of legislative, diplomatic and administrative achievement.

"I am a Republican, have always voted the Republican ticket and still believe largely in tenets of the Republican party," continued Mr. Griffin in outlining his reasons for supporting President Wilson. "It seems to me, however, that the present situation is one which requires that the voter bury party prejudice and cast his vote for the man whom his judgment designates as most suitable to serve the best interests of the people as a whole.

"Therefore I purpose to vote for Mr. Wilson. I have reached that conclusion because of his great accomplishments. While in common with other critics I might find fault with some details of Mr. Wilson's policies and even with his methods in bringing about results, it seems to me that the only fair way to judge a chief executive is by the measure of what he has actually accomplished. For illustration consider the Mexican question, our relations with the European powers and even the much mooted railroad strike. Critics of the President have claimed defects in the manner in which Mr. Wilson has handled our diplomatic affairs both in relation to Mexico and to Europe, but to me such fault-finding seems unwarranted and carping criticisms for certainly none can justly find fault with the results accomplished by Mr. Wilson, even though they may have preferred some other method of bringing about the same results.

"Every right thinking citizen surely wanted peace with the Teutonic countries as well as with the entire allies and with Mexico. Mr. Wilson has kept us at peace with all those countries. By similar skill in solving difficult problems in a practical way, Mr. Wilson prevented the railroad strike. His handling of the railroad situation was, in my opinion, one of the greatest accomplishments of his administration. A railroad strike would have resulted in more harm to the civilian population than would have been the case had their country gone to war. Possibly some better methods of settling the strike might have been conceived but judgment on the settlement of the controversy should be suspended, as Mr. Wilson's action was but the first step in an incomplete program.

"Under Mr. Wilson's guidance there has been enacted the most beneficial and favorable legislation for the business men, the farmer, the laborer and the child that has ever been enacted within the compass of any administration.

"Take the federal reserve act for example. Had this measure been not enacted into law it would have been simply impossible to indulge in the simply unprecedented commerce which we have enjoyed. Under the old conditions our credit would have been strained to the breaking point and the vast volume of business which we have been favored would have been a disaster instead of a blessing. It should be borne in mind that Mr. Wilson's policies made it possible for the American manufacturer and the American merchant to carry on this enormous trade with Europe, Asia, South America and the rest of the world.

"When one considers that Mr. Wilson has had to set in judgment over a crisis almost every week or in fact almost every day of his administration it is not remarkable if possibly here and there he has committed an error in judgment, but on the whole, his acts seem to have been inspired. He has brought the country out of every precarious situation it has encountered with great honor to the nation with great glory to himself.

"In the light of great things that the President has done, I cannot conceive why a business man, irrespective of politics can be against Wilson."

## The Big Cop Talks Politics

By Elmer Parker Butler. Author of "Dips is Dips"

"I see," said Terry, the Big Cop, as he selected his customary morning apple from the pile on Banana Joe's stand; "I see Woodrow Wilson has once more ruined the country."

"Yes?" queried Joe as he chose an apple to replace the one the Big Cop had taken. "Who tells you that?"

"The Republican oratorical outbursts," said the Big Cop. "They tell me that one reason the United States of America is in such a deplorable condition of peace and prosperity is because Woodrow fathered this Federal Reserve Act. They tell me he should be beaten, come November, because of the various and sundry things he has done to make the nation well fed and prosperous, as it has seldom been before. Look at it, they say, 'every man has a job that wants one and every manufacturer is making money. Is it right?' Under Woodrow we are having good times like we never had before. It's a crime to let it go on. We should change leaders and see if we can't have a good old-fashioned run of bad luck again."

"If that's not what they say, Joe, it must be what they mean. It's as if Maggie, my wife, should say: 'Terry, I don't know what's the matter with baby John, he's that fat and well and happy! Ever since we got the new nurse I've been improving by leaps and bounds, and don't you think we had better fire the new nurse and try another one?' It's bad policy to let well-enough alone, Terry. The child seems to be unable to be sick while we have the present nurse. Let's fire her and try a new experiment."

"You would think," the Big Cop continued thoughtfully, "that what Abraham Lincoln said was: 'By all means change horses whilst crossing the stream.' Do you know, Joe, there are times when I almost think the Republicans are hard put to it to hunt up something to kick about. There are moments when I have a feeling that, if they were not Republicans and there were no jobs to fill and it was not so close election time, they would be dang glad to happen to have a man like Woodrow in the White House. Of course, mind you, there are some of our high-minded captains of finance that have a right to have a grouse."

"I refer to the corpse squeezers, Joe; them financial magnates that have had glad times in the past when panic days came around. 'Twas then they made the commerce and manufacture of the nation how bloody murder. 'Twas then they had the country by the throat and choked the last cent out of it, since 'twas to

them only the country could come for cash relief in panic times. 'Twas some grand orgy of blood-money-getting they had in them days. When money was scarce it was nuts to them to make it scarcer. Bad times was their good times. A panic was a picnic for them."

"Poor multimillionaires! My heart bleeds for them since Woodrow fathered the Federal Reserve Act. It was a sad day for them when the act put elasticity into the currency and took the credit system out of the hands of the money trust. 'Twas cruel to them to reduce the chance of a panic to a minimum."

"It is sad, too, to hear them wail over the small profits the Federal Reserve banks are making. It touches the heart to hear them worry lest the new system will not work well should occasion come to test it. 'Tis like the poacher who used to poach from a friend of mine up in the Catskills when my friend was laid up with rheumatism. 'Poor Jim!' he says. 'He's got a gun to protect him now. When he's sick he can lay in bed and shoot at me from his window. But I don't know! I'm afraid maybe it isn't a good gun. It isn't the gun I'd have bought for him to use against me, if I had had the buying.' Nor was it, Joe. The kind of a gun he would have bought would have been one of these little wooden ones that shoot a cork the length of a two-foot string."

"That's the kind of currency reform the corpse squeezers would have liked—a pop-gun reform—plenty of holes and no effect. They had been working on one for years, I remember. Every session of Congress they got it out and tried a new kind of cork in the barrel, and shortened or lengthened the string that held the cork from going too far, but they never got it ready to use. Someone was always saying, 'We need a stronger string, and a softer cork; we don't want it to hurt any of its friends.' So they puttered with it, world without end. I have a mind it was to be a never-completed gun. But Woodrow had the new gun and had it oiled, and loaded with anti-panic powder and anti-money-trust bullets and ready to shoot, before we knew he was elected, almost."

"That's the way he is, Joe. When it is a mad step that may bring the nation to ruin and grief he stops and thinks; when it is a step toward sanity he's as quick as a strike of lightning. If he just lacked one thing that he's got he would be an easy man to beat, Joe; but he's got it."

"What is a set?" asked Joe. "Brains," said the Big Cop.

Word was received today of the death of a former well known Newark man, Mr. Joseph Fulton, the son of John E. Fulton, of the west end.

Arrangements are being made for a grand old fashioned Democratic meeting to be held in Hartford on Friday evening of this week. Hon. J. D. Jones and Judge E. M. Brister will address the people.

Many from here attended the football game yesterday between Denison and Otterbein teams.

Mr. and Mrs. Al Myers have moved to Indianapolis where Mr. Myers has located permanently.

D. C. Jewett and family left for Sioux Falls, S. Dak., at noon.

One of the most pleasant occasions of the season was a dance held at the rink last evening by the apprentice boys of the B. & O. shops. The dance was a success, due to the managers, Will Weisgarber, John Fink, Harry Sasser and Will Adams.

15 YEARS AGO TODAY.

(From Advocate, Oct. 25, 1901.)  
A terrible accident occurred this morning at the gravel pit on the Columbus, Buckeye Lake and Newark Traction Company, on the Zartman farm. Lee Patterson was working for the company and standing on the bank when the cars were backed down and he started to couple two cars and was pinned fast between the cars.

City Clerk F. T. Maurath and Abraham L. Thomas, B. & O. time-keeper, two prominent members of the Elks went to Zanesville today and will attend the Primrose and Dockstader meetings tonight.

A happy wedding took place last evening when Fred Koendörfer and Miss Emma Hupp were united in marriage. The ceremony took place in Chicago, where they will make their home.

### The Water Cure.

A Swedish farmer, who lived on his wheat farm in Minnesota, was taken ill and his wife telephoned the doctor.

"If you have a thermometer," answered the physician, "take his temperature. I will be out and see him presently."

An hour or so later when the doctor drove up, the woman met him at the door.

"How is he?" asked the doctor. "Well," said she, "I have put the barometer on him like you tell me, and it says 'Very dry,' so I give him a pitcher of water to drink, and now he can go back to work."—Philadelphia Record.

## ENDEAVORERS OF COUNTY HOLD RALLY HERE NEXT SUNDAY

A meeting of the county officers of the County Christian Endeavor Union was held at the Central Church of Christ, with nearly every member of the county organization present. Plans were laid and discussed for the meeting Sunday at the First Presbyterian church, which is to be a booster and educational meeting to the people of Newark. The County Officers of C. E. are working hard to secure for Newark the great 1918 State Convention of the United Societies of C. E.

### WORRY IS A DISEASE

The disorder which causes its victims to worry whether they have anything to worry about or not is neurasthenia. Neurasthenia is entirely distinct from hysteria although the patient may have both diseases at the same time.

Neurasthenia often results from some nervous shock, such as the loss of a near relative, business reverses, or some severe overstrain on the nervous system. The patient is usually pale, showing that the blood is thin, and the first thing to do is to build up the blood because anything that builds up the general health helps to correct the neurasthenic condition. Rest and a good tonic is the very best treatment in most cases.

Dr. Williams' Pink Pills are an ideal tonic for this condition because they are non-alcoholic and non-narcotic patients should avoid alcoholic stimulants. The Dr. Williams' Medicine Company, Schenectady, N. Y., has published a little book on nervous disorders that contains a chapter on neurasthenia, in which the symptoms are fully described and the correct treatment given. The booklet is free on request.

Dr. Williams' Pink Pills are sold by your own druggist or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50.

## YOUNG PEOPLE START WORK TO LAND C. E. MEET

Much has been said within the past few weeks regarding the good accomplished by a Christian Endeavor of young peoples convention. And naturally this question comes to the front at this time very forcibly, when plans are under way to secure for Newark, the 1918 Ohio State Christian Endeavor convention. That this convention is a great affair, from every standpoint, was clearly demonstrated in June this year at Springfield, with more than 1700 registered delegates in the senior department, and nearly 600 in the intermediate department. This brought the grand total of visitors to the city for this convention, including those that did not register, nearly to the 3000 mark.

This vast assembly represented every protestant denomination and religious organization of the state. Delegates coming from every nook and corner of the state, representing every class of people.

The convention at Hamilton, for 1917 promises to eclipse the 1916 meeting. And to say that Newark, on account of its central location, and its many advantages in the way of transportation, will without a doubt be the greatest convention of its kind ever held in the state, is not an exaggeration.

This big assembly will not come to Newark, expecting to be given free meals and lodging, but every individual pays his own way.

That much good is the result of these conventions, has been demonstrated at every convention ever held. Young people become enthused, and after seeing the great opportunities offered in C. E. work, and the good feeling shown, the educational advantages, and the new ideas in general church work, every delegate goes home, determined to do a better year's work, for the society and church they represent.

A booster meeting will be held in the First Presbyterian church Sunday afternoon at 3:00 o'clock, with Dr. C. L. Williams of Denison university as the chief speaker. The object of this meeting will be to show the people of Newark the real advantage of the 1918 great state convention of Christian Endeavor. This will not be a scheme to beg for money, as no collection will be taken nor will money in any way be asked.

## ION-O-LEX UNGUENT

Probably the most important  
discovery that has been made  
in the field of medicine in  
fifty years.

### A DETROIT PHYSICIAN WRITES:

"I am commencing to believe that Ion-o-lex Unguent is all—and even more than you claim for it—

"In one bad case of tonsillitis the temperature was reduced from 103 to normal in 24 hours. In former attacks this patient has always suffered from 5 to 10 days.

"My own wife has suffered with spasmodic contractions of the throat for 12 or 14 years, and it has always been necessary to administer narcotics for relaxation.

"The last attack was unusually severe, being a combination of the throat trouble and pneumonia—Ion-o-lex Unguent and Liquid kept the disease under perfect control, and by the fifth morning the temperature was reduced from 103 to normal—Ion-o-lex is the only thing we have ever found that has given her any relief whatever.

"I am using Ion-o-lex Unguent in my general practice, and cannot say too much for it."

Another prominent Detroit Physician prescribed Ion-o-lex Unguent as a last resort for a deep-seated felon, upon which an operation had been pronounced absolutely necessary. Inside of 24 hours the patient was so much better that the operation was entirely unnecessary, and recovery was surprisingly speedy.

Use Ion-o-lex Unguent wherever there is local inflammation—It should always be used in coughs, sore throat, bronchitis, tonsillitis, pneumonia, neuritis, acute rheumatism, eczema, erysipelas, and in all cases of burns, scalds and wounds or anywhere else that there is apt to be inflammation.

## Taft's View of Wilson.

It is interesting to note ex-President Taft's estimate of President Wilson. To be sure the following words were not uttered during the heat of the present campaign, but they were written or spoken by the former Republican President in calm moments after careful thought.

Mr. Taft, on "Personal Aspects of the Presidency," in the Saturday Evening Post, July 28, 1914:

"Never before in its recent history certainly has the Democratic party exercised such self-control. It is due to the circumstances and to Mr. Wilson's masterful personality and attitude.

"First, he knows what he wishes, and, second, he is determined to get it, and his party associates are convinced of both facts. It is a man who knows the atmosphere of Washington to note the success of a strong character in the White House in dealing with the situation and improving the opportunity which it offers.

"I rejoice in the existence of a situation in which the party in power is fulfilling its promises made in the platform and is doing so by following the guidance of the head of the party who is charged by the people with the party's responsibility."

In regard to neutrality Mr. Taft said to the Providence (R. I.) Chamber of Commerce, October 16, 1914: "President Wilson's attitude on neutrality has been most admirable, and the force of his plea for it was directness. The stand he has taken will be for the good of the whole world when the time comes for mediation."

Mr. Taft, commenting on the first Lusitania note, July 27, 1915, spoke as follows:

"The note succinctly, forcibly and finally presents the just attitude of the United States, and President Wilson will have and should have approval of the American people in maintaining it."

At the San Francisco Exposition, Sept. 3, 1915, Mr. Taft said, in regard to the submarine controversy: "The very recent news from Washington shows that the firm attitude of President Wilson in maintaining the rights of our non-combatant citizens on commercial liners of belligerents to be safe from drowning without warning and an opportunity for rescue has been acquiesced by Germany."

"This must and should be the cause of profound rejoicing by every American and the occasion for congratulation to the President."

On February 13, 1915, Mr. Taft commented on foreign notes as follows: "I have read the text of the two messages, and I was very, very glad to see that they have been forwarded to London and Berlin. I regard the notes as clear, dignified and emphatic."

Mr. Taft has said in regard to the war: "We are fortunate in having kept out of the present European war, and we ought to support the Administration in keeping us out." (Mr. Taft before the Congressional Club, Chicago, Nov. 19, 1914.)

"If we had a jingo in the White House this country would now be at war with Germany. Instead, our Chief Executive is a man who appreciates his responsibility and realizes that considering the temper of the people a turn of his hand would plunge us into an international conflict." (Mr. Taft at Bryn Mawr, Pa., June 4, 1915.)

## Plenty of Money.

Ohio is won for the Democratic ticket. Republicans realize this and frankly confess that it is due to the Wilson sweep. At a meeting of the Republican State Committee on Monday there was frank discussion of the situation and it was proposed that a fund of \$600,000 should be raised immediately of bankers, railroads, and munition manufacturers; \$200,000 of this was apportioned to Cleveland, and announcement was made by Mr. Herrick's representative that the \$150,000 of the sum was already subscribed. The rest of the amount to be raised was pro-rated in Ohio manufacturing cities. The fund is to be divided equally between the State Committee and National Committee. The National Committee work in Ohio will be in charge of Frank Hitchcock, and every man will be employed who will promise to vote for Hughes.

Consternation has been thrown into the ranks of the Willis supporters by the declaration of C. A. Miller, President of the Central Ohio Paper Company, and Republican, that he is for Wilson. Mr. Miller has decided to vote for Wilson because of his admiration for the President, and his loyalty to his country, resentful as he is of the vile attacks that have been made on the President by politicians. Miller's statement was not intended to be given publicity but it has stirred the Willis crowd to frenzy because of the fact that Mr. Miller was the Chairman of the Herrick Voters' League of Franklin county.

Review of the legislative records shows that Secretary of State Hiland had no intention of being satisfied with that little \$12,000 auto tag deal he arranged with Senator Wickline, the Governor's floor leader. From his office there was introduced a bill requiring high priced illuminated auto tags built under patents by only one firm in the United States. W. D. Fulton of this city will be elected secretary of state on Nov. 7th.

From the scrap book has been brought out a statement of Harry Daugherty who reads: "The diplomacy and statesmanship of President Wilson in preventing the United States from being drawn into war, and away from neutrality and peace, is entitled to the admiration and commendation of every patriotic American citizen."

An advertisement in a poultry journal reads: "For sale—Plymouth hens ready to lay \$1.25 each." We have a notion to get a few of those hens, then maybe we can throw up this job altogether.

It only costs \$20 to have a specialist tell the thin man that he should take milk to get fat, and the same amount for the fat man to learn that he should take milk to get thin.

The people who go to the races to see good horseflesh don't seem to enjoy it unless they are thrilled to their innermost beings by the chance of making \$1.50 on the favorite.

In view of the shortage of paper, the metropolitan sheets need not think they have to print in their Sunday issues more than 75 pages of stuff that no one reads.

## Tribute to McGhee.

The fitness and qualifications of the Hon. Joseph McGhee, democratic candidate for Attorney General, for the office to which he aspires, are preeminent. This is universally recognized throughout the state. The Hon. Judson Harmon, whose devotion to the public weal, and whose position to judge of this is perhaps greater than that of any man in the state, has recognized this. Every elector in this state should remember the following words written by Governor Harmon to Mr. McGhee, as such an endorsement, coming from this source should not and cannot be overlooked:

"I shall never forget the services you rendered as second in command during the administration of Attorney General Hogan, by which the business of the state, never more varied and important, was conducted with most distinguished ability and success. Your share in this was highly creditable to your capacity and devotion to public duty."

There is a point that it will be well for laboring men to keep in mind. Judges Johnson and Donahue will not be hurt if they should be defeated but the interests of laboring men will be hurt. The interests of honest business will be hurt. The interests of progressive thought will be hurt. The interests of fair play will be hurt. Voters will do well not to vote against their own interests. Johnson and Donahue are the names to keep in mind. The name will appear upon the separate judicial ballot.

Dr. Washington Gladden, the eminent Columbus, divine who has a wide personal acquaintance in Newark and whose fame as a writer and preacher extends beyond American borders, is a staunch supporter of President Wilson. Dr. Gladden has been a life-long Republican and has been a Republican voter since the days of Lincoln. This year he will vote for Woodrow Wilson.

When Roosevelt declined to become the Progressive nominee he told the Committee over his signature this: "Our strongest party antagonists have accepted and enacted into law very many of our most important principles."

August Bernier, labor leader of Jefferson county, member of the Republican County Committee and Republican member of the Board of Elections, is openly working for the election of Governor Cox.

The people who go to the mountains to see the autumn foliage return enthusiastic about the good roads and the things they had to eat.

Some people's idea of proving a political argument is to offer to bet \$5 and then sneak out if the other fellow has the money ready.

The only thing that reconciles the public to the reckless driving of motorcyclists is the possibility that they may smash themselves up.

## A Romance.

(Ohio State Journal.) This was out in California. Miss May Goldschneider was riding in the back seat of a jitney, when it collided with another car, in which accident Miss G. received a bruised nose and eye and ruined a handsome dress. So she sued the jitney company for \$250, and she showed at the trial that it was the company's own fault, for in the front seat with the chauffeur was another girl, whom he was hugging, and in this negotiating the steering wheel, the jitney shot out of the way and struck another car. The cause of the accident was the hugging of that girl. That made the company responsible and the court assessed damages against it for \$75.00, which, even in these times, is a pretty high price for a hug. It is strange that the court did not offer by way of obiter dictum, that the only person to hug in an automobile is on the back seat.

## Why Does He Run Away?

(Portland Oregonian.) What can be the moral makeup of a man who, knowing that the automobile that he is driving has run down a person, flees instead of stopping to aid the injured? The most favorable construction that can be put upon his action is that he is panic-stricken with horror at his recklessness. In a man of ordinary decent instincts, this panic would soon give way to the impulse to aid a person who is helpless and in distress, hence to turn back. Such action would imply conscious freedom from culpability, while continued flight implies conscious guilt and fear of consequences. He who flees under such circumstances is reckless and cowardly. He has no regard for the rights of others and, when this vice threatens evil consequences, he dodges trouble, thereby giving fresh evidence of callousness to the dictates of humanity. The law would be justified in declaring flight under such circumstances to be a crime.

## WHY I AM FOR WILSON

By Dr. Harry A. Garfield

President of Williams College  
and Son of the Former Republican President of the United States.

I have decided to support Mr. Wilson. His character as a man, his sympathetic understanding of the problems of the day, his record in office, his unusual ability, prominently displayed in meeting and dealing with the three great emergencies of his administration, and the importance of maintaining an uninterrupted policy at this juncture in world affairs lead me to believe that the best interests of our country will be served in keeping the present Administration and its party in office for the present.

I have therefore enrolled myself with the League of Independent Voters of Massachusetts.

stances to be prima facie evidence of guilt. It might justly reverse one of the first principles of justice in such a case by compelling the accused man, if caught, to prove his innocence. A man would fear even worse results from capture after fight than those which would follow frank admission of responsibility and ready aid to the injured. He would not relish the danger of detection and of being branded as a killer.

## Quaker Quips.

(Philadelphia Record) You can turn a man down, but that doesn't necessarily prove him to be a crank.

After all it seems quite natural that the people who are always tired should be punctured.

"This makes me hot under the collar," remarked the man who realized he was getting a boil on the neck.

Misfortune is a mystic maze. Many a man gets into trouble with his eyes open who can't find his way out.

Success that is measured entirely by wealth may be just as crooked as the dollar mark that indicates it.

You never can tell. Many a man doesn't know the difference between looking ahead and being too previous.

"Joy cometh in the morning," quoted the Wise Guy. "Don't tell that to the fellow who has been making a night of it," cautioned the Simple Mug.

## Question and Answer.

Bliss, Okla., Oct. 18.—Atchison, Topeka and Santa Fe mail express train No. 5, southbound, was held up and robbed by a band of robbers near here tonight.—Associated Press dispatch.

Question: "What would you have done, Mr. Hughes, if this had happened and you had been President?"

"If I had been President this could not have happened, because I would have caused it to be known in advance that I was opposed to train robberies and I would have said this with such firmness that every one would have known that I was determined to uphold American property rights on land and sea, and the robbery would not have taken place. This robbery was due entirely to the weak and vacillating policy of Woodrow Wilson." (Loud cheers.)—From a speech that Mr. Hughes might have made.—Exchange.

One for All, All for One. "Well, well, well, now what's the matter, little boy?"

## WHY I AM FOR WILSON

By Constance Drexel

What does the world expect of America, at this moment, the richest, most powerful nation on earth? Lord Bryce has just said it—Lord Bryce, closely connected with the British Government. He has said that America must take the lead in the effort to prevent a repetition of the present European killing contest.

My own experience as a Red Cross nurse in France; my more recent observations in Germany and England, convince me that the people there are sick and tired of slaughtering other human beings as a means of settling national difficulties. I found them fighting, that this might be the last war, and they look to America to point another way. Do we not owe it to them, as well as to Americans, not to make a change of administration at this crucial period, especially when we know that President Wilson has this very subject of world peace close to his great mind and heart? Let us at least give him a chance to try it.

Some mothers insist that it is an act of imprudence, but we are making public the fact that in Queens, N. Y., one may see Prudence Kissom.

## Worth Careful Thought

Do you read the label to know whether your baking powder is made from cream of tartar or, on the other hand, from alum or phosphate?

Royal Baking Powder is made from cream of tartar, derived from grapes, and adds to the food only wholesome qualities.

Other baking powders contain alum or phosphate, both of mineral origin, and used as substitutes for cream of tartar because of their cheapness.

Never sacrifice quality and healthfulness for low price.

Those in the party were: Misses Inus Dush Wilma Armstrong, Hazel Meide, Lettie Hankinson, Vestal Wilson, and Osa Clark; Messrs. Lester Parish, Edward Wilcox, Hugh Conn, Paul LaFever, Howard Handle, Loren Smith, Jay Wilson and Raymond Hanks.

Miss Anna Airesman entertained with a masquerade party at her home in Hudson avenue, Tuesday evening. The evening was pleasantly spent in music and games. Refreshments were served at a late hour to about thirty-five guests.

Mrs. Carl Wyant of Twelfth street delightfully entertained Tuesday with a dinner party and shower in honor of her cousin, Miss Lena Brillhart, a bride to be. The rooms were artistically decorated with Hallowe'en attire, the color scheme being black and yellow. A four course dinner was served the following guests: Mrs. M. D. Hartshorn, Mrs. John Flyhart, Mrs. Hugh Ellis, Mrs. W. D. Wyeth, Mrs. Emerson Brillhart, and little daughter, Mrs. Victoria Rank, Mrs. Jasper Farr, Mrs. Grant Birch, Mrs. U. G. Brillhart, Mrs. Emma Crooks, Mrs. Chas. Wyant, Mrs. J. M. Crooks, Mrs. Martha Brillhart, Mrs. Crooks, Misses Lena Brillhart, Cornelia Ellis, Mary Louisa Rank and Ethel Brillhart.

An amusing feature of the dinner was the reading of an original poem, dedicated to the bride, which was composed by each guest. Many beautiful and useful gifts were received by the honor guest.

**COTTON PRODUCTION INCREASED**  
(Associated Press Telegram)  
Washington, Oct. 25.—Cotton ginned prior to Oct. 18 was 7,291,713 bales compared with 5,708,730 for 1915 and 7,619,747 for 1914. The census bureau today announced round bales increased were 133,669 and sea island 4,931.

## COAT OF BROWN BROADCLOTH

Long graceful lines in coats is the vogue in the fashion world. This coat is one of the new models, emphasizing the long-line cut of the winter wraps. It is made of brown broadcloth and the collar and cuffs are of seal skin. Another feature of the new design is the buttons which are larger than have been worn lately.

## Obituary

**Mrs. Francis A. Baker.**  
Mrs. Francis A. Baker, aged 77 years, widow of the late Councilman Henry Baker, died at her home, 62 North First street, early this morning, following an illness of seven weeks. Death was due to complications. Private funeral services will be held from the home, Friday afternoon at 1.30 o'clock. Rev. Geo. Bohon, Schmidt, officiating. Interment will be made in Cedar Hill cemetery.

Mrs. Baker underwent an operation at the Sanitarium several weeks ago, and apparently was on the road to a complete recovery, Monday night she was removed to her home. Tuesday her condition changed and continued to grow worse until her sufferings when death relieved her.

She was born in Fredonia, Ohio, April 26, 1839, and had spent practically her entire life in this city. She is survived by five children, Mrs. William Hedrick, of Columbus; Mrs. T. J. Hoffman, also of Columbus; J. R. Baker, of Las Vegas, New Mexico; and John F. and Olive L. Baker, at home.

## AUDITOR CUTS GERMAN'S NAME FROM PAYROLL

(Associated Press Telegram)  
Columbus, Oct. 25.—The state civil service commission today took the first steps to enforce the rule against political activity on civil service employees when it recommended the dismissal of Peter Albeitz, employed as settlement clerk in the estate auditor's department. State Auditor Donahay was notified that Albeitz's salary would no longer be approved because he has been making political speeches. Albeitz is a German speaker and recently took the lead in an attack on the German-American alliance for endorsing Hughes for President.

State Auditor Donahay's reply to the civil service commission's action today said Albeitz was on a leave of absence, and was not now on the payroll. Donahay defied the civil service commission to fire any employee of his department. "I'll not remove anybody upon recommendation of the commission until the supreme court tells me to," said Donahay.

In a statement issued the civil service commission says any person under civil service who engages in political activity will be recommended for dismissal. Charles Bach, Republican, clerk in the state fish and game commission, asked the commission for permission to lead the Franklin county division in the Hughes parade in Columbus, Oct. 30, and was told that this would be a violation of the civil service law.

## Granville

(Special to The Advocate)  
Granville, Oct. 25.—At every meeting of the Granville committee of the A. F. F. W., which is held all day on Tuesday of each week in The King's Daughters rooms, the interest is steadily growing, even despite the fact that only a few women in the village can hope to attend every meeting and remain all day. The work yesterday was still under direction of Mrs. Frank Ray's committee and surgical dressings formed the bulk of the output. The counter attraction of a day in the open with the Sophomores and Freshmen contending for supremacy, proved too strong for a number of the earnest workers on the committee, but their places at the long tables were taken by others who succeeded in turning out 9 dozen bandages, 4 slings, 11 bed pads, 17 packages of gauze dressings (25 in a package); 3 knitted sponges, 1 pressure pad, and a bushel, more or less, of clippings. Mrs. Ray donated a box of the Dexter cotton, No. 4, to be used in knitting the sponges, which are to be 12 inches square when finished, and numerous other donations were brought in which will be published in the secretary's weekly report. At the brief business session the secretary read the following brief communication from the New York headquarters:

"My Dear Mrs. McCullum:— \* \* \* I am very pleased to tell you that the three boxes have arrived and are going forward on the S. S. Lafayette, sailing October 21, and I trust will reach their destination safely. \* \* \* and we are very proud of our Granville committee. I know you have aroused a great deal of enthusiasm, so we are looking forward to the co-operation which we shall receive from your committee this winter. Thanking you for your keen interest in our work, I remain, Sincerely yours, Elizabeth Scarborough, Secretary."

Miss Minnie Jones for the extension committee reported that members of her committee are under full swing. Mrs. Theodore Johnson and Mrs. Walter Livingston are lining up the college organizations; Mrs. Anna Campbell has already secured ten dollars from the Baptist Social Union, with the other church societies yet to meet; Mrs. Clemons is interviewing the literary clubs with gratifying success. Miss Clara Sheldon is to entertain this evening school faculty at her home this evening and begin work among the grades, and Mrs. Frank Owen of North street will have charge of the social clubs. Mrs. Ira Perry, the treasurer, made a report but as the club subscriptions have not yet been handed her the cash donations will be reported later.

One of the most generous open hearted men in Granville whose purse strings are always loosened for a worthy cause, asked some of the A. F. F. W. committee yesterday what was wrong that he hadn't been solicited. "I can't understand it," he said. "You know I stand ready at all times to do my share. Let me know when you are ready for my contribution." And he is building a house, too!

Prof. W. H. Johnson, head of the Latin department and secretary of the alumni association of Denison university left today for Nashville, Tenn., where he will attend the meetings of the national association of alumni secretaries to be held on October 26, 27 and 28.

Miss Anne Trotter of Newark was the guest of Miss Doris Lisle yesterday and this morning.

Mrs. R. S. Colwell was in Columbus Tuesday, the guest of her daughter Emily.

Miss Katharine Griffith of Mt. Vernon was the guest yesterday and today of Mrs. Theodore Johnson. Announcement has been made of Miss Elliott Hudson's engagement to Mr. Clifton Hudson of Georgetown, S. C.

The first of the series of historical recitals will be given in Reel hall this evening by Prof. K. H. Edman and Miss Fannie Perron. Everybody welcome. 7.45.

The Freshmen men of all the points in the annual scrap yesterday, which was held on Beaver Field under the supervision of Coach Livingston. The pole vault and relay race in the forenoon and the football game in the afternoon with a score of 6-4, established their equality with the sophomores—in fact with the points 3 to 0 in their favor, they claim superiority over this illustrious class.

Mr. and Mrs. Edgar Earl Kessel of Fallsview, W. Va., are visiting at the home of Dr. and Mrs. C. J. Leveles in East Broadway.

Mrs. Lillian Brown of Cadiz who has been visiting at the home of her cousin, Mr. Frank Robinson left yesterday for Springfield.

George B. Cressey of the sophomore class, suffered a broken collar bone while engaged in the scrap on Beaver Field, yesterday.

The Fortnightly club was delightfully entertained at the home of Mrs. Forbes Wylie in South Prospect street, last evening. An excellent program was presented by Mrs. Julia Jones Watkins, Mrs. A. K. Follett and Mrs. J. M. Swartz, who read papers, and the splendid music was furnished by Mrs. Everett Johnston in an exquisite vocal selection and by Mrs. C. J. Loveless and Miss Ruth Rockwood in a brilliant four hand piano number.

## Scads Of Money Offered To Bet On Pres. Wilson

(Associated Press Telegram)  
Columbus, Oct. 25.—Interest in political betting was stimulated here today by a report that there was \$9,000 even money on Hughes at a local cigar store. The money is said to have come from Chicago. Local agents for the bettors found takers for about \$3,000 of it by noon and it was said. There was also said to be \$20,000 of New York even money offered on Wilson at a local hotel.

## STORE MANAGER

## SAYS AGREEMENT HAS BEEN BROKEN

Frederick M. Ryan has filed a petition in common pleas court against Louis Bamberger, et al. It recites that on April 5, 1916, plaintiff entered into a written contract with Louis Bamberger, as president of the Browning Shoe Co., whereby it was agreed that plaintiff should take charge of the store at No. 9 South Third street, at a salary of \$25 per week and that he should receive one per cent of the gross sales, which was to be used by plaintiff in purchasing an interest in the business. It was further agreed the petition alleges, that if the gross sales in the year under Mr. Ryan's management should exceed \$20,000 over the year preceding, then plaintiff should have three per cent on the increased sales over \$20,000. The petition further recites that on Oct. 24, a representative of Louis Bamberger called at the store and demanded the keys to the same and when refused returned the next day. The said act, plaintiff claims, is in violation of the agreement and he asked that an injunction be allowed by the court restraining the defendants from interfering with his rights and also award him \$300 damages. The temporary injunction was allowed by the court until the matter can be heard on its merits.

## Files Cross Petition. In the case of Mae E. Hupp vs. Fred H. Hupp, the defendant has filed an answer and cross petition in common pleas court.

In his answer he admits marriage with plaintiff and the birth of two children but denies all other allegations. For his cross-petition he alleges that he and plaintiff were married Sept. 27, 1905, and that they are the parents of two children, aged nine and five years. He alleges plaintiff is guilty of gross neglect of duty and also makes other charges. Defendant prays court that he be given the decree and the custody of the children.

## SAGE TEA KEEPS

## YOUR HAIR DARK

It's Grandmother's recipe to bring back color, youthfulness and lustre—Everybody is using it again.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold. Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. The hands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes black, glossy and lustrous, and you appear years younger.

## Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

## BIG EATERS GET KIDNEY TROUBLE

Take Salts at first sign of Bladder Irritation or Back-ache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders. Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. LATEST PRAISE OF NERV-WORTH MOST STRIKING

Mrs. E. P. Swigart Finds Better Health in Less Than One Bottle of the Tonic.

The trade in Nerv-Worth continues to spread into the surrounding country as well as to cut a strong figure in Newark itself, and with this comes new and most convincing signed statements from happy out-of-town users. The following statement is the very latest:

"I want to offer my testimonial and endorsement of Nerv-Worth. I have suffered for two years with nervous troubles. Taken lots of medicine and doctored considerably. Was short of breath. Fluttering heart. Terrible nervous headaches, usually on the top of my head. Could not sleep at all. Poor circulation. I was always as cold as death. My feet and hands were like ice. No appetite.

"I have taken about two-thirds of a bottle of Nerv-Worth. I feel better than I have since I have been sick. Sleep is good. Refreshed in the morning. Appetite good. No heart trouble. No headache—all gone. Circulation better. No trouble about cold feet and hands are improving. I recommend Nerv-Worth to my friends and neighbors.

BOMB EXPLODED IN THE SUBWAY; NO ONE INJURED

(Associated Press Telegram)

New York, Oct. 25.—Explosion of a bomb or dynamite at the 110th street station of the Lenox avenue subway line early today did considerable damage to that station, injured the ticket agent's booth, broke electric lamps and windows in the kiosks, tore off a portion of the sidewalk overhead and broke the windows in some of the apartment houses nearby. There was no train at the station or near it at the moment. Traffic in the subway was suspended for half an hour or more as the result of the blast.

Subway employees at that station said they saw no one loitering about and did not know how the explosive was brought into the station. The only theory they could suggest was that it might have been set off because of the street railway strike which has been in progress since early in September. The explosive evidently was placed upon one of the tracks at the southern end of the station platform. The explosion took place before daylight. It tore up one of the railway ties, broke away a part of the concrete platform, wrecked the confectionery and news stand and threw the ticket chopper 20 feet from his post. The explosion was heard nearly a mile away. Ambulances and physicians, policemen and repair crews were summoned, but there was little to do but clear away the broken glass and shattered concrete.

GIRLS AND BOYS OFFERED PRIZES IN FARM EXHIBIT.

Saturday afternoon the members of Madison Grange will give an exhibit of some of the leading products of the farm at their grange hall. Substantial prizes have been arranged for the best displays.

The unique idea of interesting the young people more thoroughly in farm life is in the nature of special prizes, one for the boys is a good thrifty pig, to the boy making the best display of potatoes. To the girl making and displaying the best loaf of bread, a pair of thoroughbred chickens will be given. Other products to be exhibited are corn, apples, pumpkins, butter, cakes and jellies.

Arrangements have been made whereby all of the 7th and 8th grade scholars of the township are given an opportunity to judge the various articles by score card. The boy or girl making the best score will receive a prize.

The officers and members of this Grange are making a special effort to make this event one of the most complete of their year's work and the public is cordially invited to attend.

BROWNSVILLE

Brownsville has an epidemic of measles at the present time. The schools are considerably depleted on account of a number of pupils being sick. However, none is dangerously ill.

Rev. Mr. Wells of the Methodist Protestant church and a former pastor, preached a very interesting sermon to an appreciative audience. Sunday at this place.

A kitchen shower was given for the newly-weds, Mr. and Mrs. Otis Flanner, Monday evening, at the home of John Holmes, west of town. The ladies' aid society of the M. E. church was entertained by Mrs. C. E. Thursday, October 19. An interesting program was rendered. Luncheon was served to twenty members and visitors.

Miss Ella Dusterheier visited her cousin Mrs. Coo last week and they both visited Dr. O. P. Dusterheier of Zanesville last Sunday. John W. Dusterheier and wife of Newark, were also among the number.

The Spooks Club will meet with Miss Paige at the National hotel Saturday evening, Oct. 28, at 7:30 o'clock. Those invited to attend will come masked as it is a Halloween gathering.

There will be evangelistic services held in the Presbyterian church, beginning Sunday, November 5.

DUKE OF ORLEANS WILL ASK THE POPE TO ANNUL MARRIAGE

Duke and Duchess of Orleans.

According to authoritative reports, the Duke of Orleans, pretender to the throne of France, is about to apply to the court of Rome for an annulment of his marriage to the Archduchess Marie Dorothea of Austria. The duke contends that the marriage was not concluded on the Austrian side in accordance with all the requirements of ecclesiastical law. The duchess won an action for separation in January, 1914.

At the outbreak of the war the duke in sending back the insignia of the Golden Fleece to the Austrian emperor wrote that the marriage had been the curse of his life.

OUCH! LUMBAGO! RUB PAINS FROM SORE, LAME BACK

Rub Backache away with small trial bottle of old, penetrating "St. Jacob's Oil."

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacob's Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on your back and out comes the pain. It is harmless and doesn't burn the skin. Limber up! Don't suffer! Get a small trial bottle of old, honest "St. Jacob's Oil" from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.—Advertisement.

Calvin Hazlett Is Member Of Student Senate

Last week's "Red and Black," the paper edited by the students of Washington and Jefferson college brings the information of an honor that has come to another Newark boy. The Student Senate is composed of one member from each of the college classes, two members chosen from the students by the faculty, and one chosen by the President of the college. The object of the Senate is to establish, maintain and regulate the customs and traditions of the college; and to govern and regulate the conduct of students in examinations, in the college, in the town and wherever any misconduct would tend to bring discredit upon the good name of the college. Calvin H. Hazlett, son of Dr. Hazlett of the First Presbyterian church, has been chosen a member of this Senate, the honor being enhanced by his being the appointee of the President of the college.

SPEED SHOWN BY CENTRAL POWERS IN NEW ACTION

(Associated Press Telegram)

Berlin, Oct. 24, via London, Oct. 25.—The Iron Grip of the Central powers upon Rumania has tightened in two important notches, with the capture of Medjidie and Raschova in Dobruja and of Predeal, on the Transylvania borders. The conquest of these important places have been achieved with surprising speed.

Military men as usual to prophesy as to other developments of the campaign against Rumania but appear confident that all will come in due time.

With the capture of Constanza, the Rumanians lost their principal seaport, while the taking of Medjidie and Raschova now places Tchernavoda in a critical position, and in military opinion here, threatens Rumania more than ever.

The capture of Predeal comes as a climax to the recent forcing of a number of important mountain passes from Transylvania into Rumania, so that the Central Powers appear to be nearly in a position to swoop down upon the Rumanian plains and attack the heart of the country.

Predeal and the passes behind it spell the loss of Rumania of its natural western fortifications formed by the mountains of Transylvania. Medjidie and Raschova, if they lead to the capture of Tchernavoda, denote the removal of the artificial barriers to access into Rumania across its other natural fortification, the Danube river.

ARKANSAS TRAIN HERE TOMORROW AT B. & O. DEPOT

"Arkansas On Wheels," the solid all-steel train touring through West Virginia, Maryland, Pennsylvania and Ohio, showing the horticultural, agricultural and mineral products and resources of Arkansas, will be in Newark tomorrow afternoon for one hour, from 2:30 to 3:30 p. m.

The train consists of five big exhibit cars, dining cars and Pullman palace cars, to accommodate the representative citizens accompanying the exhibits.

More than a quarter of a million people have visited previous "Arkansas On Wheels" trains, covering the north and the east. These magnificent trains have aboard each year one hundred and thirty-five loyal Arkansas boosters who have told the story of Arkansas' greatness and opportunities in such a way as to attract the eyes of the nation to this state.

The train will, as in the past, carry a magnificent concert band, eloquent speakers, sweet singers and a perfect organization of "Arkansas" leading citizens, including state officials, farmers, bankers, lawyers, doctors, merchants, editors and teachers.

The train will arrive in Newark from Zanesville via the Baltimore & Ohio Lines and Newark citizens are making preparations to meet the visitors and welcome them to this city.

ASK WOMEN TO AID RECRUITING FOR REGULAR ARMY.

(Associated Press Telegram)

San Francisco, Oct. 25.—The United States army authorities here have advertised for women to aid in securing enlistments for the United States army, it becomes known today. The advertisement, inserted by Lieut. Colonel John H. Gardner, retired, who is in charge of the recruiting station here, called for "twelve girls for the United States army."

The advertisement specified that they must be "attractive, intelligent and industrious," held out the inducement that here was a chance to "make money and do your country a service," and concluded with the warning that "no triflers need apply."

Colonel Gardner's plan is to install an exhibit which will demonstrate the life of a soldier from camp cooking to infantry drill. The women recruiting agents will work out of that station and will be paid \$1 for every recruit they obtain.

Jess Willard Says: "Take Nuxated Iron"

If you want plenty of 'stay there' strength and endurance and health and muscles like mine."

Ordinary Nuxated Iron will often increase strength and endurance of the delicate nervous folks 200 per cent in two weeks' time.

SPECIAL NOTICE—Dr. E. Sauer, a well known physician, who has studied widely in both this country and Europe, has been specially employed to make a thorough investigation into the real secret of the great strength, power and endurance of Jess Willard, and the marvelous value of Nuxated iron as a strength builder.

At his apartment in the Colonial Hotel, Mr. Willard said, "Yes, I have a chemist with me to study the value of different foods and products as to their power to produce great strength and endurance, both of which are so necessary in the prize ring. On his recommendation I have often taken Nuxated iron and I have particularly advocated the free use of iron by all those who wish to obtain great physical and mental power. Without it I am sure that I would never have been able to whip Jack Johnson so completely and easily as I did, and while training for my bout with Frank Moran, I regularly took Nuxated iron and I am certain that it was a most important factor in my winning so easily." Continuing Dr. Sauer said, "Mr. Willard's case is only one of hundreds which I could cite from my own personal experience which proves conclusively the astonishing power of Nuxated iron to restore strength and vitality even in the most complicated chronic conditions."

Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor and vitality as a young man.

In fact a young man he really was, notwithstanding his age. The secret he said was taking iron—Nuxated iron had filled him with renewed life. At 20 he was in bad health, at 46 overworked and nearly an old man, but a miracle of vitality and his face beaming with the buoyancy of youth. As I have said a hundred times over, iron is the greatest of all strength builders. If people would only throw away patent medicines and various concoctions and take simple Nuxated iron, I am convinced that the lives of thousands of persons might be saved and they would be young again.

Now, the every year from anemias, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause, which started their diseases was nothing more or less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood

I consider that plenty of iron in my blood is the secret of my great strength, power and endurance.

Jess Willard

A hitherto untold secret of our great victory over Jack Johnson and Frank Moran.

to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you—without doing you any good. You don't get the strength out of it and as a consequence you become weak, pale and sickly looking just like a plant trying to grow in a soil deficient of iron. If you are not strong or well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five grain tablets of ordinary Nuxated iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like Nuxated iron if you wish it to do you any good, otherwise it may prove worse than useless.

Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the affray, while many another has gone to inglorious defeat simply for the lack of iron.—E. Sauer, M. D.

NOTE—Nuxated Iron, recommended above by Dr. Sauer, is not a patent medicine nor secret remedy but one which is well of proven to druggists, whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not irritate the stomach, make them black, nor upset the stomach; on the contrary, it is a most potent remedy, in nearly all forms of indigestion, as well as for nervous, rundown conditions. The manufacturers have such great confidence in Nuxated iron that they offer to forfeit \$10,000 to any druggist if it fails to cure a case of iron deficiency. It is dispensed by Wm. Evans, Evans Cut-Rate Drug Store and all good druggists.

## MANY WOMEN TESTIFY.

Columbus, Ohio.—"I was so well pleased with the use of Dr. Pierce's Favorite Prescription that I am glad to endorse it. I was run-down and had female trouble and I doctored with several medicines with no benefit. The 'Favorite Prescription' put me on the road to health. I used seven bottles and this medicine was the means of my recovery. I have been well since, with no return of the trouble. I have recommended this to others who have come back to thank me on account of the benefits they received."—MRS. MARY J. DILLINGHAM, 136 Norwick St., Columbus, Ohio.

Lancaster, Ohio.—"I have had a test of 'Favorite Prescription' and it proved a very satisfactory medicine. I took it in the spring. I was run-down, tired and worn-out. I used the contents of two bottles and it did all I could expect and more. I felt just fine after I had used it. You may say it is a good tonic and strengthening medicine for women."—MRS. J. W. KLAN, 393 E. Main St., Lancaster, Ohio.

The mighty restorative power of Doctor Pierce's Favorite Prescription speedsily cures all womanly troubles to disappear—compels the organs to properly perform their natural functions, corrects displacements, overcomes irregularities, removes pain and misery at certain times and brings back health and strength to nervous, irritable and exhausted women.

What Doctor Pierce's Favorite Prescription has done for thousands it will do for you. Get it this very day from any medicine dealer, in either liquid or tablet form.

Doctor Pierce's Pellets are unequalled as a Liver Pill. Smallest, easiest to take. One tiny, Sugar-coated Pellet a Dose. Cures Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

## HOME TREATMENT FOR SORE THROAT

Sore throats, with their attending evils of acute discomfort, racking coughs, and sometimes fatal weakening of the system, are the curse of the northern races. Yet people too often accept them as Mohammedan accept the plague, without effort to cure or to prevent. Since sore throats are the work of germs, they can however, be easily prevented and relieved.

All that is necessary is to kill the germs that cause the raw feeling of the membranes and often cause annoying accumulations of phlegm which must be partially cleared away by those convulsive efforts of the lungs which go by the name of coughs.

The most efficient, economical and safe germicide for the purpose can be made at home by simply adding five to ten drops of Hycolorite to a glass of water. This Hycolorite water should be used as a thorough gargle for the raw throat in which the germs have made their home or as a preventive gargle at the first symptoms of a cold in the throat.

Hycolorite will do the work more efficiently than any of the many germicides now on the market. It is a solution of sodium hypochlorite. A U. S. government report has been published showing that 130 antiseptics were recently tested in the military hospitals of Europe and sodium hypochlorite declared by the surgeons to be the most economical and effective of them all.

Although many times more powerful than the harmful antiseptics which contain poisons, acids, mercury or dangerous preservatives, Hycolorite is even safer than the weak and ineffective peroxides. It is clean and harmless as water—but powerful. Any druggist can supply Hycolorite in 25 and 50 cent bottles. General Laboratories, Madison Wisconsin.

## Difficulty at Scranton

Mrs. H. B. S., of Scranton, Pennsylvania, was in a bad condition. She could scarcely eat, and couldn't digest what she did eat. Her weight dropped to 97 pounds and she was enaemic, very nervous and generally run down.

She found in HEMO a strengthening and satisfying nourishment that gave her the strength she could not get from ordinary food.

In two months she weighed 112 and looked healthy and was healthy and still is gaining.

Makes a delicious food drink by simply adding water.

## WOMEN IN FAMILY AUTOS SPREAD WILSON TIDINGS

Peace, Prosperity and Humanity, Their Message to Voters—A Work of Devotion, Without Glitter, Says Mrs. Charles Dana Gibson, in Charge of the Movement

The humble Ford and all the other little cars that carry the plain people of the United States about their business and pleasure have come into their own as agencies for reaching the voters in a presidential campaign. As usual, women are the innovators.

Leaving private trains and other expensive frills to the Hughes campaigners, women pledged to the reelection of the President who gave them the Child Labor Law and the Children's Bureau are organizing by neighborhoods from New York to California to spread the gospel of Wilson, peace, and humanity through every countryside and every city ward.

Letters and telegrams by the thousands are being received at the Women's Bureau of the Democratic National Committee in New York City, offering the use of the family automobile and the leisure-hour services of women who see President Wilson's cause as the cause of every good mother and every good citizen.

On a big map at Headquarters colored pages are sprouting as county after county reports the enlistment of women volunteers. They will carry pamphlets and leaflets, as well as personal messages, relating why they regard the President's election as important. The work is being directed at Headquarters by Mrs. Charles Dana Gibson and other enthusiastic Wilson workers.

"Our women volunteers are not going out with a blast of trumpets to tell other people what they should do," said Mrs. Gibson. "Each woman will cover her own immediate neighborhood and talk in neighborhood, friendly fashion with those she meets along the country roads and at the farm houses and in the city streets.

"There will be a lot of devotion and no glitter about this work. The women undertaking it are acting from deep conviction—not from a relief from the boredom of social life. The kind of women who are to drive their family cars along the roads for us don't get bored with life. They are in dead earnest, and they have something they are sure is worth saying to the friends and neighbors they meet along their way.

"No district will be too remote or obscure to be included in this canvass. It is another step toward realizing that electing a President is the people's own business and that the good citizen's duties are not confined to voting on election day."

There will be sub-centers of the automobile campaign in the large cities of the West, and each Democratic County Chairman will provide headquarters for the automobile campaign in his district.

The Women's Bureau is urging patriotic women all over the country to join in this work. Any woman interested is invited to notify the Bureau at No. 30 East Forty-second Street, New York City, so that the territory in which she wishes to work may be allotted to her and arrangements made for supplying her with literature, buttons and automobile decorations.

Miss Marie Louise Burge and her sister, of Westfield, N. Y., have voluntarily covered the territory within twenty miles of their home, distributing literature to over 1,300 farmers. Miss Burge writes the Women's Bureau at Democratic National Headquarters asking for more literature to order that she may cover the ground again in the interest of the reelection of President Wilson. This work is being done without compensation.

use, is rarely presentable when sickness comes, and there is nothing more depressing to a sick person than the knowledge that she looks untidy.

A woman may claim that she is so seldom ill that it scarcely seems any more necessary to keep such garments around than to follow the example of her grandmothers and have grave clothes packed away in a closet; but when sickness does come it is usually a sudden thing and it may then be neither convenient nor possible from a pecuniary standpoint to purchase new garments in such an emergency.

It is all very well to use old quilts and gowns while the patient is really ill, as there is danger of spilling medicine on bedroom finery, but when there is a change for the better there is nothing like a fresh little sacque or a becoming wrapper to have a moral effect on the patient and hasten recovery.

If the occasion does not arise when the negligee is needed for illness it is yet always ready for packing to take on a trip away from home. One should never travel without a negligee of some kind for use in case of illness or when the night is chilly and extra covering is needed.

## Every Day Etiquette

"How long before the wedding should the invitations be sent out and when should one send out wedding announcements?" asked Edwina.

"Wedding invitations should be sent out two weeks before the wedding day. Announcement cards are sent out the day following the wedding," advised his mother.

"It is etiquette to make a dinner call after having attended a dinner," asked Maudie.

"Those who have been invited to a dinner party, whether an acceptance or a regret was sent, should call on the hostess within a couple of weeks. Eight o'clock in the eve-

## Our Boys and Girls

The first essential for a child's beauty and health is one—plenty of pure air and sunshine. If children have plenty of light, air and a properly regulated diet, they will grow like the flowers and be as lovely as they are.

But in the effort to give them light and air do not allow little girls to freckle, for freckles once attained are very difficult to get rid of; they manifest themselves very early in life.

Shading the child's face with an ordinary cotton sunbonnet is a wise precaution. At any rate, if freckles should make their appearance the sunbonnet will have given sufficient protection so that they will not be deep seated, and it will be an easy matter to get rid of these by applying a freckle lotion.

Junket is a predigested custard, frequently prescribed for teething babies from fourteen months on, also for delicate children. It is prepared with essence of pepsin or a

junket tablet which can be bought at any good grocery.

Pour one cup of sweet milk into a clean enameled stewpan. Dissolve a junket tablet in one tablespoon of cold water. Turn this lightly into the warm milk, stir just enough to mix it, and a very little sugar and flavoring turn into cups or small bowls to cool. When cool it looks like a milk jelly.

When the baby is exhausted by heat and teething, add a thoroughly beaten egg along with the sugar and flavoring. This dish is said to be even more easily digested than plain or modified milk.

Nineteen Babies in 10 Years. Frank Scott and his wife of Ken-sett, Ark., have been married 10 years. Nineteen boys have been born to them. Six died at birth. Of the 13 living there are three sets of triplets and two sets of twins. The parents have been partial to the letter "A" of the alphabet in naming them. Ashbell, Archer and Austin are 4 1-2 years old. Arthur and Arnold 3 1-2 years; Alured, Al-bion and Adolph 18 months, and Abel and Abner 6 months.—Chicago Tribune.

Manager Ponberg of the Auditorium has a wonderful program on display at his house, the showings for same for the last time will be seen today.

The big feature "The Weakness of Strength" has four stars, the leading character being Edmund Breese, the well known actor and in his support is seen Ormi Hawley, a Metro beauty, Evelyn Brehl, who has starred with the Metro Co. for some time and that clever actor Clifford Bruce.

This feature is seen together with the first episode of a marvelous serial that will be seen at this house every week for fifteen weeks. This feature alone is well worth the price of admission and should not be missed.

## "Freckles"

The Broadway Amusement Co., the producers of "Freckles" which comes to the Auditorium Saturday matinee and night has spared neither pains nor expense in staging this song play in the most elaborate manner possible. In the first place there is an environment in

"The Bird Woman in Freckles" Auditorium, Saturday, Matinee and Night, Oct. 25.

"Freckles" which very few plays possess; chances for scenic investiture amazingly natural and picturesque; and when it is understood that the management has brought it up to the highest standard of stage production both from a scenic point of view and by means of a thoroughly competent and perfectly balanced cast, there is a double assurance of merit. Seats ready Thursday.

## Howe's Travel Pictures.

The thrills of travel without its dangers may once again be enjoyed in rich measure at the Auditorium Sunday afternoon and evening next, when Lyman H. Howe's Travel Festival will be the attraction. To "Travel With Howe" is as instructive and much less laborious and annoying than doing it yourself, and also much cheaper.

A trip of exceeding charm will be made to Hawaii, "The Paradise of the Pacific," during which the reaping of the sugar cane harvest is depicted as well as a railroad ride along the coast of Hilo—a veritable land of enchantment. At Waikiki Beach, "The Atlantic City" of the islands, natives are shown surfing. One of the most striking contrasts of this series is that afforded by the stupendous spectacle of awfulness and desolation in the crater of the volcano of Kilauea. Another pictorial tour that

rehearsal held at the club room Sunday afternoon.

All the members have been busy for weeks with rehearsals so that the entire bill runs smoothly.

For the first part opening a beautiful Garden of Roses setting will be used. This setting is unexcelled in beauty, never fails to draw unstinted applause. The costumes are all bright and new, and are made in colors to harmonize with the setting, the whole presenting a picture long to be remembered.

The music will be under the direction of Mr. Harold Simpson, as musical director. The perfect harmony in the K. of C. chorus is due to the work of Mr. Simpson. Mr. Simpson is president of the famous Euckey Republican Glee Club, which is known the country over.

The dancers have been drilled by Bernie Wingerter. A feature will be the dancing team of ten black-face comedians. Mr. Arthur Willett, the Chesterfield of modern minstrelsy, will act as interlocutor.

A glance at the list of soloists will convince everyone that only the high class talent will be used. John A. Garrity, bass; John Birmingham, tenor; Frank Ewalt, the popular

ular baritone, and Thomas Murray, the wonderful high note singer are among them. The first end men, the advance guards of merriment, are "Bun" Ewalt and John Dolan. You cannot afford to miss hearing "Bun" Ewalt sing "Dancing at That Georgia Jubilee" or John Dolan, with his famous Newark glide, "Pray for the Lights to Go Out."

The premier of modern minstrelsy are Bernie Wingerter and Albert Gleichauf. "I Have a Sweet Tooth Bothering Me" is sung by Albert Gleichauf, and if he fails to make you laugh you will be presented with a house and lot. Bernie Wingerter will sing "Dancing Down in Dixie." Last season Mr. Wingerter was offered a position with John W. Vogel, also the Faust minstrels, but like Nat C. Goodwin he has turned down the proposition.

Immediately following the first part there will be an olio of four acts and no expense has been spared in making this a feature of the show. First on the program will be "A Night in Rome" with the sterling legitimate player, Harry Shields and a distinguished cast. Justin Keely will take the part of Vista, his beautiful daughter, and

Anthony Slare as Skrygactorious, a valiant knight and Vesta's lover. The next number is Big Chief Kneebone, Nell Floyd and his dashing, daring, dreadful Hottentots. This act is the season's latest importation direct from the Palace Theatre, London, captured along "The River of Doubt," delivered and enthusiastically endorsed by "Teddy." The third members in the olio are Cheney and Wood, who banish dull care. This act from New York, secured for this one engagement only by special arrangement with the United Booking offices.

And last but not least will be a spectacular cotton scene, along the Mississippi river in the days of slavery. In this scene the Knights present a great gathering of comedians, a comedy full of mirth, melody, music and movement. The cast of characters in the plantation scene include such stars as Sylvester Gainer, as Aunt Jemima, John Garrity as Uncle Joe, and John Birmingham as Liza.

## ALHAMBRA.

"Friday, the Thirteenth," celebrated story from the pen of Thomas W. Lawson, will be the next World Film feature to be shown at the Alhambra theatre on tonight and tomorrow, with Robert Warwick playing the role of the little Napoleon of Wall street.

Mr. Warwick is one of the most popular screen heroes of the day. They call him Bob forever, and he is now one of those especially distinguished features of the Brady-Made brand of World Pictures. But whether you take him on the screen or off, there is nothing "staggy" about this big chap. He is a man's man, with strict literalness. For years he held the middleweight amateur boxing championship of the big Olympic Sporting Club in San Francisco. Warwick hails from there, and is a graduate of the University of California. He possessed at one time a beautiful baritone voice and studied six years in Paris preparing for the opera. A severe cold left his voice permanently impaired and he returned to America determined to take up a stage career.

The most destructive agent ever evolved is the X-ray gun the height of Yankee ingenuity, in "The Intrigue" coming to the Alhambra, Friday and Saturday. So amazing is the annihilating power of this invention that a small compact model that can be carried from place to place with ease—even this small machine will utterly destroy any object at a distance of 3 miles. While the larger X-ray gun will destroy at a distance of 25 miles.

This is visibly proven in this remarkable Pallas-Paramount photo-

play, in which beautiful Lenora Ulrich stars in the very attractive role of an intriguing Countess.

### Eyeball Removed; Steel Struck Optic In B. & O. Shops

George W. Martin, 112 Jones street, boilermaker at the Baltimore & Ohio shops, this morning underwent an operation at the Sanitarium, for the removal of his right eye, injured Monday when a piece of steel penetrated the eye. The operation was performed by Dr. D. J. Price, assisted by Drs. J. G. Shirer and W. E. Lewis.

The explosion of an air hammer at the B. & O. boiler shops Monday was responsible for the piece of steel striking Martin in the eye. A peculiar coincidence of the Monday accident is that several years ago, a brother of Mr. Martin, suffered the loss of his right eye due to a piece of steel penetrating it while he was at work in the Baltimore & Ohio shops.

### Fitz Team Plays Empires Sunday At Wehrle Park

All Fitzsimmons players are requested to report for practice tonight at 7:30. The team will play the Columbus Empires next Sunday at Wehrle Park. The Empires are reported to have one of the strongest teams in the 140-pound division in the Capital City. Needless to say the Fitz team will put forth its best efforts as it is making a strong bid for championship honors.

The Empires have several former high school stars in their lineup and have been defeated but once this season. The football fans of the city are assured of an afternoon of high class entertainment when these two teams clash Sunday afternoon at Wehrle Park.

### Dartmouth Back Scores 70 Points; Maulbetsch 51

(Associated Press Telegram)  
New York, Oct. 25.—With the football season reaching the half way mark, team scores and individual scores are mounting up rapidly, the totals for five and six games reaching large proportions in some cases. Among the larger institutions Vanderbilt leads with 208 points. Syracuse is second with 190 and Dartmouth and Pennsylvania State tied in the third place, with 174 each.

Gerrish, the Dartmouth half back is the leading individual scorer, his nine touchdowns and sixteen goals aggregating 70 points. Maulbetsch the plunging Michigan backfield star is second, having accumulated 61 points while McCreight of Washington and Jefferson, is third with 49.

### Man Is Burned In An Explosion Of Gas; Will Recover

After leaving Newark, where he endeavored to sell an automatic sash lock, John N. Cook, 30, of Circleville, went to Zanesville where he was seriously burned in a gas explosion at 10:00 o'clock Tuesday night.

With his hair and whiskers almost burned off and his clothing on fire he was rescued from the residence of Mrs. Kate Donavon in North Fourth street, following a gas explosion which had blown out the second story walls of his home. Cook had retired and when found was groping amid the flames and ruins in search of his clothing.

The explosion was caused by a gas stove connected with a rubber tube. Cook was struck on the head with falling brick. He was badly burned about the head and on the right hand. He saved most of his effects except the shoes. He was taken to a hospital for the night.

"I never was sick a day in my life and this is my first accident and I have always been traveling," Cook explained after the accident.

### LEVINSKY CLAIMS LIGHT HEAVYWEIGHT TITLE; BEAT DILLON

Boston, Oct. 25.—Battling Levinsky of Bridgeport, Conn., claimed the light heavyweight championship of America last night after outpointing Jack Dillon of Indianapolis in a 12-round bout. The referee's decision was undisputed.

Levinsky had whatever advantage there was in every round except the fifth. He rocked Dillon at times with both rights and lefts and showed his ability to take repeated punches without apparent loss of strength. Dillon seemed to lack his usual aggressiveness.

## CHIROPRACTIC

—YOUR NERVES CONTROL YOUR HEALTH—

The intricate network of nerves which conveys the life to every part of the human body is responsible for the condition of your organs. These nerves, or health sustainers, are distributed from the spinal column. If through accidents, blows, unnatural growth or curvature, the spinal column obstructs or interferes with the free passage of the health-giving currents which pass through these nerves, the organ or part of the body dependent upon the particular nerve so obstructed will become diseased, and remain so until the pressure has been removed.

Chiropactic, by relieving the pressure on the nerves, removes the cause of ill health.

### WHEN CAMELS RAN WILD IN MISSISSIPPI

The geology of mountain regions is generally more difficult to master than that of plains, because the rocks have been more broken and tilted about, but the geology of certain parts of Mississippi is almost as difficult as that of a mountainous region, because certain widely distributed formations bear few definite identification marks, particularly remains and impressions of plants and animals that lived at the time the deposits were formed. A peculiar sandstone, which geologists have called the Catahoula sandstone, has been studied with care by G. C. Matson and E. W. Berry of the United States Geological Survey, Department of the Interior, who have been able to identify and follow the sandstone by means of the remains of plants. Among the plants found were pines, ferns, leaves of date palms, tropical myrtles, figs, and a tree closely related to the present-day Mexican and Central American sapota, from which most of the material for chewing gum is obtained. These fossil plants show that at the time the sandstone was formed—perhaps five million years ago—the climate of this region was tropical and bones of camels found by other geologists and the similarity of the sand composing the sandstone to certain tropical desert sands have a similar implication. The report describing these fossil remains (Professional Paper 98 M) is purely technical. A copy may be obtained from the Director, Geological Survey, Washington, D. C.

### RESTORES EXTINCT MAMMALS FOR U. S.

**J. W. Scollick at work.**  
J. W. Scollick, for thirty-two years a scientist in Uncle Sam's employ has restored most of the skeletons which the National Museum exhibits as samples of pre-historic mammals. In recent years the work has grown so that a separate department is devoted to each branch of bird and animal mounting. Mr. Scollick is now an osteologist and prepares all the skeletons of birds which are sent to the museum for preservation. The skeletons are used by scientists all over the world.

### PRESIDENT'S TRAIN GOES THROUGH CITY IN EARLY MORNING

The schedule for the president's trip from Cincinnati to the east has been changed since yesterday so that he will pass through Newark during the night instead of 8 o'clock in the morning as originally planned. President Wilson will reach Cincinnati tomorrow at 11:30 a. m. and will leave for the east via the B. & O. railway at 10:00 p. m. His train will pass through this city between 2:00 and 3:00 o'clock Friday morning.

### OHIO'S VOTE IN YEAR 1912

In 1912 Wilson received in Ohio 424,834 votes, Taft 278,168. Roosevelt 229,807, Debs 90,144, Chafin (Prohibition) 11,511, Reimer (Soc. Labor) 2,630. Total vote cast for President in Ohio 1,037,904. At the same election for governor Cox received 439,323, Brown 272,500. In Licking county in 1912 Wilson received 6,120, Taft 4,487, Debs \$19, Chafin 162, Reimer 30, Roosevelt 1,1683. Wilson's plurality was 1,633 in Licking county four years ago.

### WILL ASSIST IN THE CELEBRATION AT ZANESVILLE, O.

The U. C. T. and the Order of Red Men of this city are making preparations to attend the Mardi Gras at Zanesville Friday evening in a body and it is possible that they may take along the famous Buckeye band. This city will send a big delegation down both by auto, interurban and steam cars. Hundreds from this city will journey to the Clay City in costumes. Clubs of young men and women are being formed to take in the annual show in our neighboring city. It's going to be a big event and all who attend are promised the time of their lives.

### LOCAL BANK SECURES THE BOND AWARD

Granville, O., Oct. 25.—The village council met in adjourned session Tuesday evening, October 24, Mayor Coons in the chair. The \$3,500.00 street improvement bonds were awarded to the Park National bank in Newark at a premium of \$32.17. The Cherry street and Main street pavings, by a tentative agreement, were awarded by the former to the Ohio Engineering Company, to be paved with asphaltic concrete, the latter to Mr. M. J. Keely, to be paved with Lincoln block. Work on Main street will start as soon as the contract is signed and will probably be finished this fall. A resolution was passed ordering new sidewalks to be placed before the Kate Rugg and the Williams property on West Broadway at the corner of Plum street.

### UNCLE SAM'S MAPS AT A PREMIUM.

That Uncle Sam's topographic maps are appreciated by public-utility corporations is shown by the fact that telephone companies throughout the United States are constant purchasers. These companies send frequent orders to the Geological Survey, Department of the Interior, for its maps in lots of 250 or 500, and occasionally when some big contract has been landed as many as 1,000 maps are ordered at a time for the use of the engineers and linemen. Some electrical-supply companies keep complete sets of the maps of areas in States in which they expect to do extended work, and when they hear that contracts are to be let for such work they refer to these maps, and with the "lay of the land" before them can tell at a glance the character of the work that will be required and can make their bids promptly and intelligently. The telephone officials who are "using the maps extensively" state to the Survey that they are of "indispensable value" in their work.

The Japanese Royal family has a fortune of over \$250,000,000, and in addition to this the Emperor receives \$15,000,000 annually from the State.
